

Figure: 19 TAC §97.1005(b)

Excerpted Sections of the PBMAS 2008 Manual

Section II: Components of the 2008 PBMAS

Data Sources

Data used in the PBMAS come from a variety of sources. Student assessment data are obtained from data sets produced by the Student Assessment Division of the agency. Data obtained from other divisions within TEA include the list of dropouts and longitudinal graduation data from the Division of Accountability Research; Academic Excellence Indicator System (AEIS) and annual graduation data from the Performance Reporting Division; and PEIMS data from the Information Systems Division. The data source for each performance indicator is included as a part of the explanation of each indicator described in this manual.

The calculations for each indicator are based on the most current data available and, for ease of understanding, are presented in this manual as single-year calculations. In certain instances, however, multiple years of data are combined in order to meet minimum size requirements. (See *Minimum Size Requirements* on page 9.)

Filters

At times, there are unique circumstances concerning the evaluation of a district on a particular performance indicator. For example, a residential facility for students with disabilities in a particular district is likely to increase the percentage of students identified for special education programs. As such, it may be appropriate to apply certain filters to the data sets before performance indicators are calculated. Any filters applied to data sets used to calculate performance indicators are included in the description of the indicator in this manual. In addition, TEC, §39.072(d), requires that the performance of students in certain settings be excluded from districts' student performance determinations, and those exclusions that have been applied to the PBMAS calculations.

No Data Available for an Indicator

A district with no data available for evaluation receives a designation of *No Data*, meaning the district cannot be evaluated because of an absence of data. For example, if a district has no migrant students to report in a particular year's data collection, then for any migrant indicator based on that data collection, the PBMAS report for the district will show *No Data* instead of a performance level. Districts with one or more designations of *No Data* should examine their local data collection and submission procedures as well as the Data Source section for each PBMAS indicator to confirm the accuracy of the *No Data* designation. It is the ongoing responsibility of districts to ensure students are coded correctly for both PEIMS and student assessment data. In addition, data validation analyses and reviews are conducted by the agency as part of its performance-based monitoring activities.

Rounding

All PBMAS calculations are rounded to one decimal place; for example, 79.877% is rounded to 79.9%.

Masking

District data are released to each school district and charter as allowed under the Family Educational Rights and Privacy Act (FERPA). PBMAS data released to the public are masked to protect student confidentiality.

Standards and Performance Levels

A performance level is the result that occurs when a standard is applied to a district's performance on an indicator. The performance levels available for indicators in the 2008 PBMAS include *Not Assigned (including Not Assigned through SA or PJSA)*, *0*, *OSA*, *OPJSA*, *ORI*, *1*, *ISA*, *IPJSA*, *2*, *2SA*, *2PJSA*, *3*, *3SA*, or *3PJSA*. (SA refers to special analysis, while PJSA refers to professional judgment special analysis; both are described in the *Minimum Size Requirements and Special Analysis* section below. RI refers to Required Improvement, which is also described in a separate section below.) A performance level of *0* is the highest designation for any indicator, meaning the district met the standard for the indicator. A performance level of *3* is the lowest designation, indicating that the district performance was farthest from the *0 - Met Standard* designation.

Types of Standards

Absolute standards are tied to an absolute requirement or goal that all districts have the possibility of achieving each year. The state accountability system provides absolute standards to which PBMAS standards can be aligned for certain TAKS indicators. The standards, by subject, for a rating of *Academically Acceptable* in the 2008 state accountability system are as follows:

TAKS Subject	Percent of Students Passing
Mathematics	50%
Reading/ELA*	70%
Science	45%
Social Studies	65%
Writing	65%

* *English Language Arts (ELA)*

Standards for PBMAS TAKS performance indicators are aligned with these state accountability standards so that a district achieving the performance standard for an accountability rating of *Academically Acceptable* in a TAKS subject area test receives a PBMAS performance level assignment of *0 – Met Standard* for that TAKS subject area indicator in PBMAS. In standard PBMAS analysis, a district with performance up to 10.0 percentage points below the state accountability standard receives a performance level assignment of *1*, and a district with performance 10.1 to 20.0 percentage points below the state accountability standard receives a performance level assignment of *2*. Any district with performance 20.1 or more percentage points below the state accountability standard receives a performance level of *3*, the lowest designation in the PBMAS. The following chart summarizes the assignment of performance levels for the PBMAS TAKS indicators:

District TAKS Passing Rate Compared to PBMAS Standards				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district TAKS passing rate is at or above the state accountability standard for the subject. (Minimum size requirements not applicable if PL = 0.)	The district TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

Relative standards are not tied to an absolute requirement or goal. Rather, they are usually based on the distribution of scores of the population being evaluated. While absolute standards are preferred, they are not always possible to determine with a new indicator and may not always be appropriate depending on the purpose of a particular indicator. Relative standards may be used in the PBMAS to determine a baseline absolute standard for certain indicators.

Changes to PBMAS Standards

As part of the annual PBMAS development cycle, the agency considers the standards for each PBMAS indicator. A decision to increase standards for one or more indicators is based on a careful consideration of the following:

- whether a state or federal goal has been identified for the indicator;
- actual improvement on the indicator over time;
- amount of improvement that is reasonable for the indicator;
- overall impact on the PBMAS of increased standards;
- other considerations that could affect performance on particular indicators;
- setting appropriate standards across similar indicators; and
- external input.

The table below identifies the PBMAS standards for 2007 and 2008, as well as anticipated standards for 2009. However, all standards are subject to change as a result of any state or federal requirements the agency is required to implement.

PBMAS STANDARDS				
<i>TBD = To Be Determined; LEP = Limited English Proficient</i>	PBMAS Standards by Year			
		2007	2008	2009
TAKS Indicators (All program areas)	Subject			
	Mathematics	45.0%	50.0%	55.0%
	Reading/ELA	65.0%	70.0%	70.0%
	Science	40.0%	45.0%	50.0%
	Social Studies	65.0%	65.0%	70.0%
	Writing	65.0%	65.0%	70.0%
Annual Dropout Rate Indicator (Grades 7-12)		2.0%	2.0%	2.0%
Annual Dropout Rate Indicator (Grades 9-12) <small>Separate standard established for Grades 9-12 in 2008 due to change in dropout definition.</small>		2.0%	3.0%	3.0%
Bilingual Education (BE)/English as a Second Language (ESL) Indicators				
LEP Participation Rate		82.0%	82.0%	82.0%
LEP Recommended High School Program (RHSP)/Distinguished Achievement Program (DAP) Diploma Rate		60.0%	60.0%	60.0%
LEP Graduation Rate		Report Only	Report Only	70.0%
Reading Proficiency Tests in English (RPTE) Multi-Year Beginning Proficiency Level Rate		Report Only	Suspended	Re-instated
Career and Technical Education (CTE) Indicators				
CTE RHSP/DAP Diploma Rate		70.0%	70.0%	70.0%
CTE Graduation Rate		Report Only	Report Only	70.0%
Non-Traditional Courses-Male		Report Only	Report Only	TBD
Non-Traditional Courses-Female		Report Only	Report Only	TBD

PBMAS STANDARDS

<i>TBD = To Be Determined; LEP = Limited English Proficient</i>	PBMAS Standards by Year			
		2007	2008	2009
No Child Left Behind (NCLB) Act Indicators				
	Subject			
Title I, Part A Graduation Rate			Report Only	TBD
Title I, Part A Discretionary DAEP Placements			Report Only	TBD
Migrant RHSP/DAP Diploma Rate		70.0%	70.0%	70.0%
Migrant Graduation Rate		Report Only	Report Only	70.0%
Special Education Indicators				
TAKS/TAKS (Accommodated) Participation Rate		Report Only	20.0%	TBD
TAKS-M Participation Rate			Report Only	TBD
TAKS-Alt Participation Rate			Report Only	TBD
3-5 Year-Olds Less Restrictive Environment Placement Rate		11.0%	11.0%	11.5%
6-11 Year-Olds Less Restrictive Environment Placement Rate		25.0%	25.0%	30.0%
12-21 Year-Olds Less Restrictive Environment Placement Rate		46.5%	46.5%	50.0%
Special Education RHSP/DAP Diploma Rate		16.5%	16.5%	16.5%
Special Education Graduation Rate		Report Only	Report Only	70.0%
Identification		8.5%	8.5%	8.5%
African American Representation		1.0 percentage point	1.0 percentage point	1.0 percentage point
Hispanic Representation		1.0 percentage point	1.0 percentage point	1.0 percentage point
LEP Representation		1.0 percentage point	1.0 percentage point	1.0 percentage point
Discretionary Disciplinary Alternative Education Program (DAEP) Placements		1.0 percentage point	1.0 percentage point	1.0 percentage point
Discretionary Placements to In-School Suspension (ISS)		16.0 percentage points	10.0 percentage points	10.0 percentage points
Discretionary Placements to Out-of-School Suspension (OSS)			Report Only	TBD

Report Only Indicators

Some PBMAS indicators are reported for district information and planning purposes. For these indicators, the district performance will be reported along with the overall state rate for the indicator. No minimum size requirements are applied, and no performance levels are set for these indicators.

After a period of two years, performance levels are typically assigned to Report Only indicators, and district performance on these indicators will be evaluated. The inclusion of Report Only indicators in PBMAS provides districts with an opportunity to review current performance and plan ahead.

Minimum Size Requirements and Special Analysis

A minimum size requirement is incorporated into all indicators that are assigned a performance level (PL). In general, districts must have at least thirty (30) students in the relevant segment of the student population denominator to be evaluated on an indicator using the standard PBMAS analysis. In addition, for certain PBMAS indicators districts must have at least five (5) or thirty (30) students in the relevant segment of the student population numerator to be evaluated. The minimum size requirements are noted in the description of each indicator in this manual.

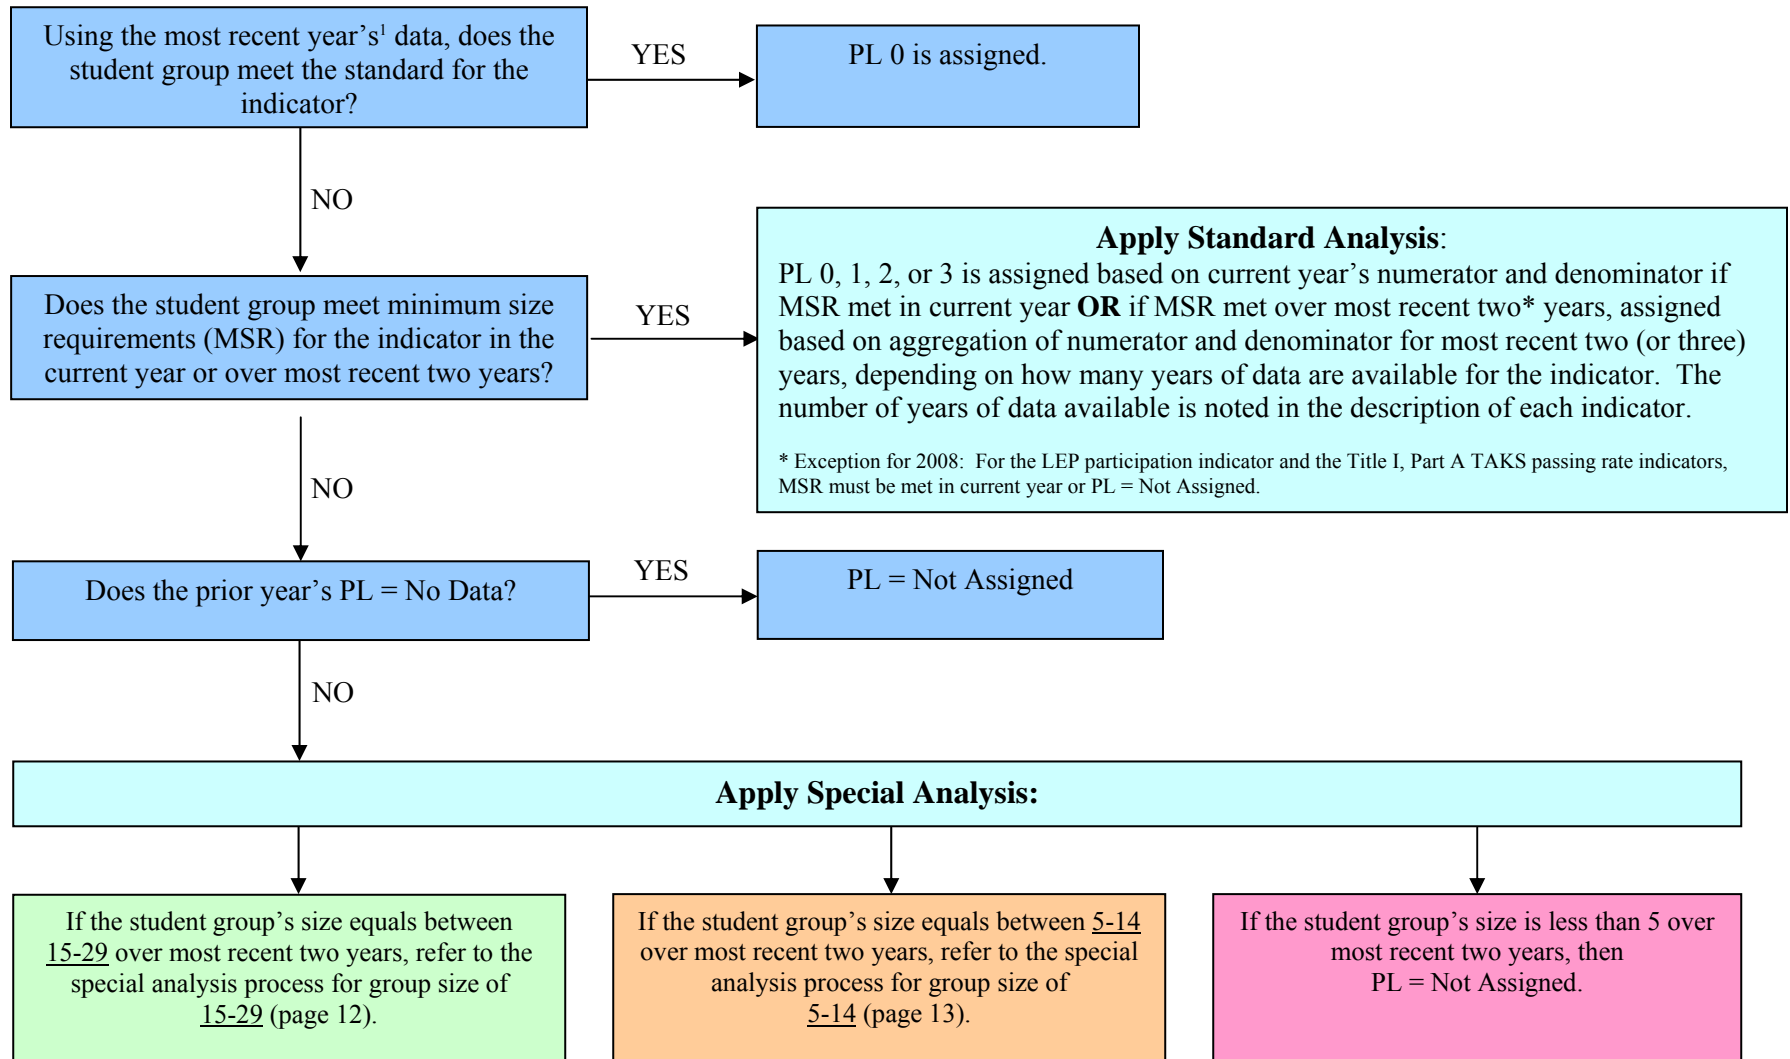

Minimum size requirements can be met either in the current year or through the aggregation of numerators and denominators over the most recent two years. If the minimum size requirement is met for a particular performance indicator, then a district is evaluated using the standard PBMAS analysis. Under standard analysis, when minimum size requirements are met with the current year's data, a performance level is assigned based on that data in relation to the standard for the indicator. When minimum size requirements are met based on the most recent two years of data, the numerator and denominator for the current and prior years are aggregated, the indicator is calculated, and a performance level is assigned based on the current year's standard for the indicator. Depending on the particular indicator, there may be one or two prior years of data that are aggregated with the current year's data to assign a performance level. If the minimum size requirement is not met, then the district is evaluated under a process called "special analysis," which is described below.

There is one exception to the minimum size requirement. If a district does not meet the minimum size requirement for an indicator, but the performance of the district meets the criteria to earn a performance level of *0 – Met Standard*, then the district receives a performance level of *0*, regardless of the number of students in the relevant segment of the student population.

Special analysis is a tool that can be used to analyze the performance of districts and charters that do not meet the minimum size requirements. Performance levels established using the special analysis process will have "SA" or "PJSA" appended (*NA SA, NA PJSA, OSA, OPJSA, ISA, IPJSA, 2SA, 2PJSA, 3SA, 3PJSA*) and will be included on PBMAS reports to districts and charters.

The flowcharts on the following pages depict the process for determining whether standard or special analysis (including professional judgment special analysis) is applied in the PBMAS:

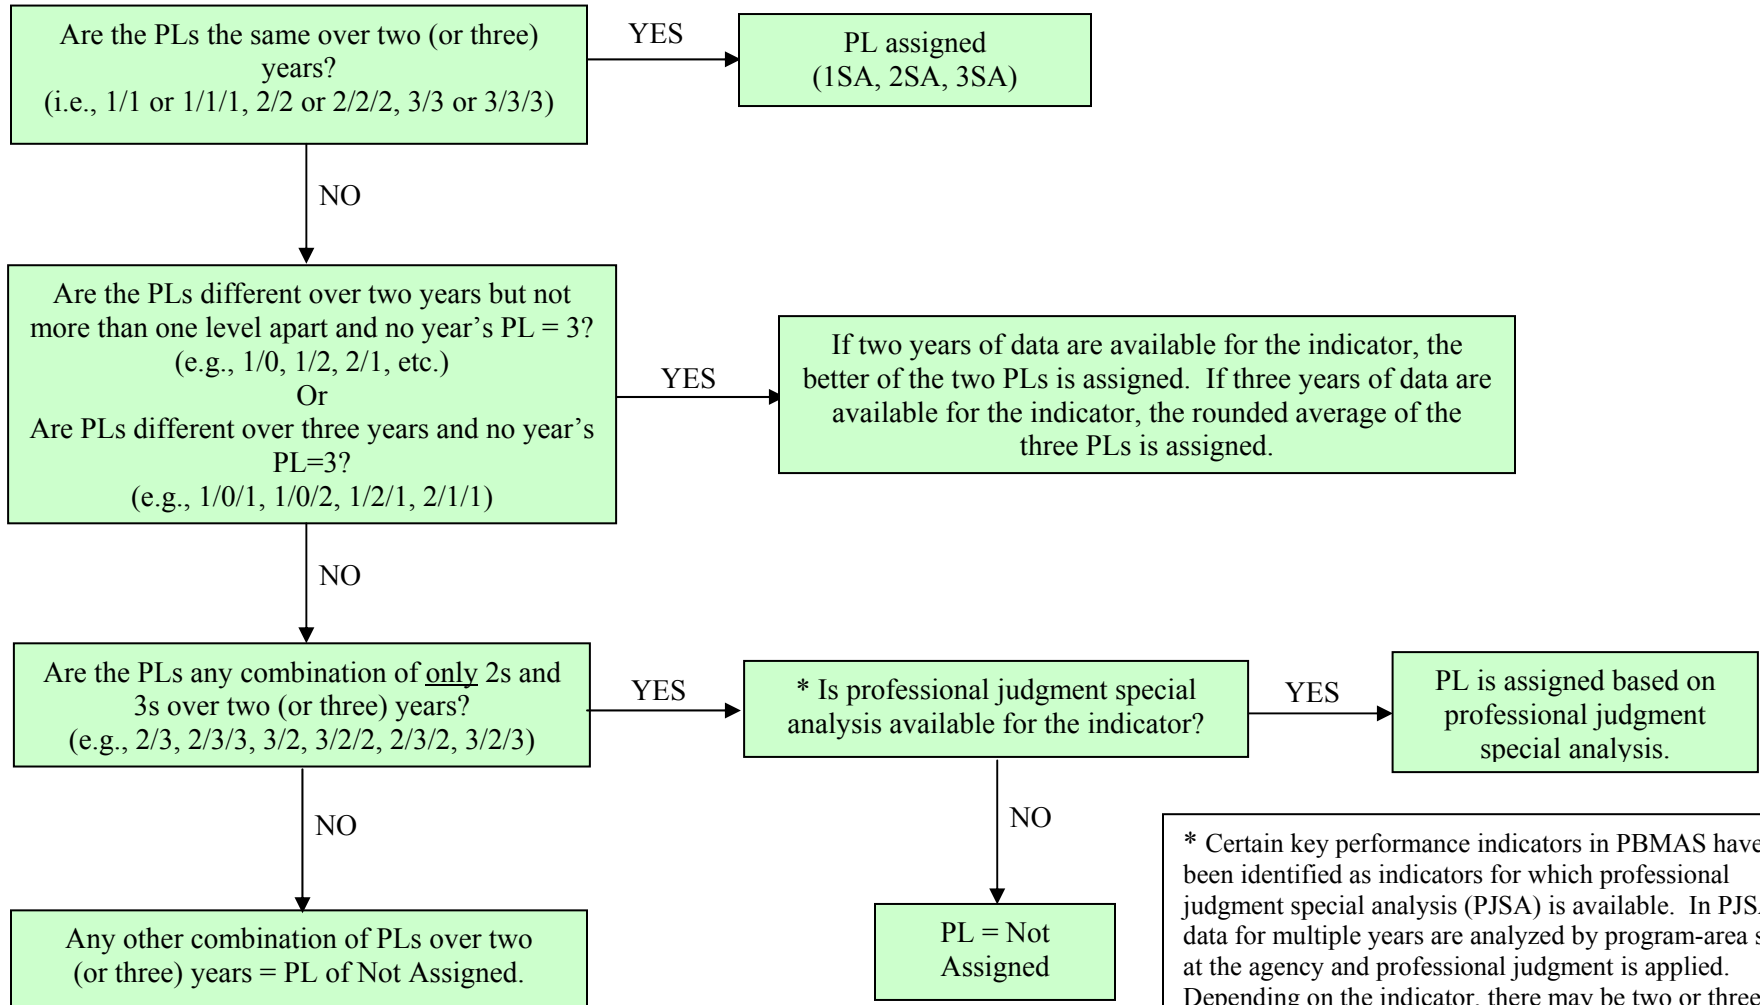

2008 PBMAS Performance Level Assignment and Special Analysis Determination Process

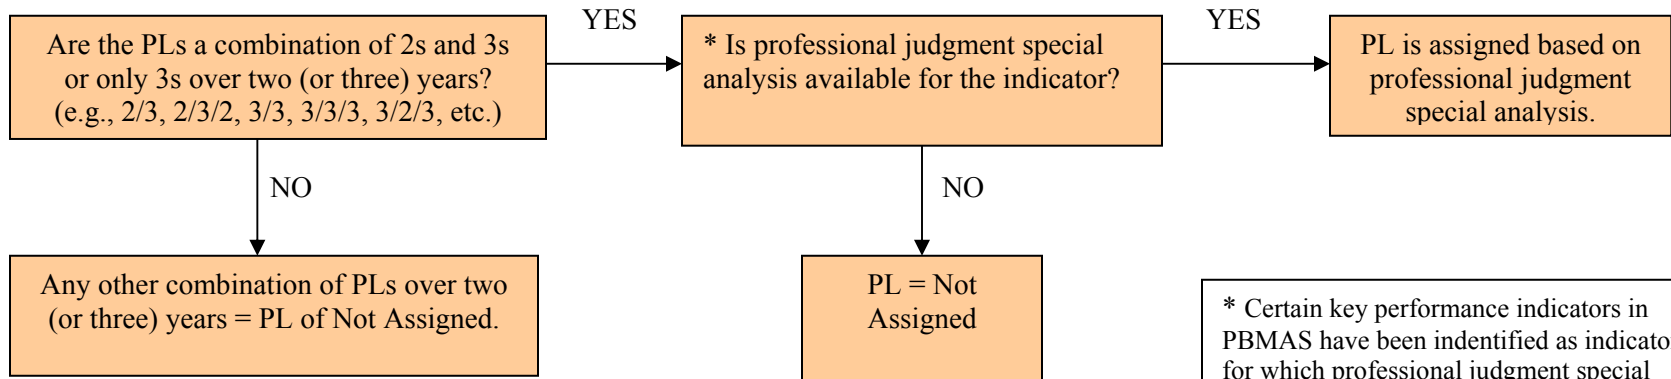

Note: For indicators eligible for the PBMAS special analysis process that have minimum size requirements in both the denominator and the numerator(s), a district's group size is determined by the *smallest* denominator or numerator(s) over the most recent two years.

¹ If no current year data are available, then PL = No Data.

**2008 PBMAS Performance Level Assignment and Special Analysis Process for Group Size of
15-29 (sum of most current two years)**

**2008 PBMAS Performance Level Assignment and Special Analysis Process for Group Size of
5-14 (sum of most current two years)**

* Certain key performance indicators in PBMAS have been identified as indicators for which professional judgment special analysis (PJSA) is available. In PJSA data for multiple years are analyzed by program-area staff at the agency and professional judgment is applied. Depending on the indicator, there may be two or three years of data available for analysis. Because of time limitations, PJSA is not available for all indicators. The scope of professional judgment special analysis is described in the Minimum Size Requirement section for each indicator.

This Page Intentionally Left Blank

Required Improvement

The PBMAS, by design, has a built-in improvement component. Because the system includes a range of performance levels, districts that demonstrate improvement from one year to the next can progress from one performance level to another. For example, a district with 60% of its migrant students passing the TAKS social studies test in 2007 received a performance level of 1. If that same district is able to improve its migrant TAKS social studies passing rate to 65% in 2008, it would receive a performance level of 0 because its performance meets the 2008 standard.

In addition to the system's built-in improvement component, the 2008 PBMAS will again include implementation of a "required improvement" component for certain indicators, similar to the required improvement feature in the state accountability system. The 2008 PBMAS indicators for which required improvement is available are the following:

- BE/ESL #1(i-v)—BE English TAKS Passing Rate
- BE/ESL #2(i-v)—ESL English TAKS Passing Rate
- BE/ESL #3(i-iv)—BE Spanish TAKS Passing Rate
- BE/ESL #4(i-iv)—ESL Spanish TAKS Passing Rate
- BE/ESL #7—LEP Annual Dropout Rate (Grades 7-12)
- BE/ESL #8—LEP RHSP/DAP Diploma Rate
- CTE #1(i-iv)—CTE TAKS Passing Rate
- CTE #2(i-iv)—CTE LEP TAKS Passing Rate
- CTE #3(i-iv)—CTE Economically Disadvantaged TAKS Passing Rate
- CTE #4(i-iv)—CTE Special Education TAKS Passing Rate
- CTE #5(i-iv)—CTE Tech Prep TAKS Passing Rate
- CTE #6—CTE Annual Dropout Rate (Grades 9-12)
- CTE #7—CTE RHSP/DAP Diploma Rate
- NCLB #5(i-v)—Migrant TAKS Passing Rate
- NCLB #6—Migrant Annual Dropout Rate (Grades 7-12)
- NCLB #7—Migrant RHSP/DAP Diploma Rate
- SPED #1(i-v)—SPED TAKS Passing Rate
- SPED #3—SPED TAKS/TAKS (Accommodated) Participation Rate
- SPED #6—SPED 3-5 Year-Olds Less Restrictive Environments Placement Rate
- SPED #7—SPED 6-11 Year-Olds Less Restrictive Environments Placement Rate
- SPED #8—SPED 12-21 Year-Olds Less Restrictive Environments Placement Rate

- SPED #9—SPED Annual Dropout Rate (Grades 7-12)
- SPED #10—SPED RHSP/DAP Diploma Rate
- SPED #12—SPED Identification
- SPED #13—SPED African American Representation
- SPED #14—SPED Hispanic Representation
- SPED #15—SPED LEP Representation
- SPED #16—SPED Discretionary Disciplinary Alternative Education Program (DAEP) Placements
- SPED #17—SPED Discretionary Placements to In-School Suspension (ISS)

Required Improvement Calculations

For the TAKS passing rate indicators where required improvement is available, the following calculation will be used for districts that meet minimum size requirements in both the current and previous year and have a performance level that is not equal to 0 – *Met Standard*:

$$\begin{array}{l}
 \textbf{Actual Change:} \qquad \qquad \qquad \qquad \qquad \qquad \qquad \textbf{Required Improvement:} \\
 [performance\ in\ 2008] - [performance\ in\ 2007] \geq \frac{[standard\ for\ 2010] - [performance\ in\ 2007]}{[number\ of\ years\ to\ reach\ standard]}
 \end{array}$$

EXAMPLE OF REQUIRED IMPROVEMENT USING NCLB INDICATOR #5(i): Migrant TAKS Passing Rate (Mathematics)
<p>1. First, calculate the Actual Change for the district’s migrant TAKS mathematics passing rate:</p> $ \begin{array}{l} \textbf{Actual Change:} \\ \frac{[45.0\%] - [40.0\%]}{(2008) \quad (2007)} = 5.0 \end{array} $
<p>2. Next, calculate the Required Improvement for the district’s Migrant TAKS mathematics passing rate:</p> $ \begin{array}{l} \textbf{Required Improvement:} \\ \frac{[60.0\%*] - [40.0\%]}{6\ (2013-2007)} = 3.3 \end{array} $ <p>Note: The 2013 target year allows districts three years beyond 2010 to reach the 2010 standard. This target year is the same for all TAKS passing rate indicators where required improvement is available.</p>
<p>3. Then compare the two numbers to see if the Actual Change is greater than or equal to the Required Improvement: $5.0 > 3.3$. (Gains in passing rates are measured in <i>positive</i> numbers.)</p>
<p>4. Result: the district meets Required Improvement and receives a performance level of 0 – <i>Met Standard</i>.</p>

*In 2010, the anticipated standard in the state accountability system for Academically Acceptable for TAKS mathematics is currently 60% passing. The PBMAS TAKS passing rate target standards used for 2008 Required Improvement will be equivalent to the Academically Acceptable standards in the state accountability system currently planned for each subject area in 2010. For information on anticipated standards in the state accountability system, see the 2008 Accountability Manual available at the following web address: <http://www.tea.state.tx.us/perfreport/account/2008/manual/>.

For all other indicators for which required improvement is available, the only differences in the required improvement calculation are that the target year standard is the current [2008] PBMAS standard and the number of years to reach the standard is two. In addition, note that the calculation below measures *reductions* in rates which are measured in *negative* numbers. The actual change in special education identification needs to be *less than or equal to Required Improvement* for the standard to be met.

EXAMPLE OF REQUIRED IMPROVEMENT USING SPECIAL EDUCATION INDICATOR #12: SPED Identification	
1. First, calculate the Actual Change for the district’s SPED identification rate:	<p><u>Actual Change:</u></p> $\frac{[15.0\%] - [25.0\%]}{(2008) - (2007)} = -10.0$
2. Next, calculate the Required Improvement for the district’s SPED identification rate:	<p><u>Required Improvement:</u></p> $\frac{[8.5\%] - [25.0\%]}{2 (2009-2007)} = -8.25$
3. Then compare the two numbers to see if the Actual Change is less than or equal to the Required Improvement : $-10.0 < -8.25$. (Reductions in identification rates are measured in <i>negative</i> numbers.)	
4. Result: the district meets Required Improvement and receives a performance level of <i>0 – Met Standard</i> .	

System Safeguards

System safeguard activities are conducted by the agency to ensure the integrity of the performance-based monitoring system. These activities include data validation analyses of leaver data, student assessment data, and discipline data as well as random or other means of selection to verify system effectiveness and districts' implementation of monitoring requirements, including, but not limited to, accuracy of data reporting, implementation of intervention activities, implementation of plans for improvement or correction, and accuracy of findings made through the performance-based monitoring process.

Performance-based monitoring interventions determinations are based on PBMAS performance levels and other criteria as well as results of the data validation analyses described above. Sanctions are applied as necessary and according to state and federal law and Texas Administrative Code, including, but not limited to, Texas Education Code §39.075 and §39.131.

Additional information related to performance-based monitoring interventions is reflected in 19 Texas Administrative Code (TAC) §97.1071, Special Program Performance; Intervention stages, available at www.tea.state.tx.us/rules/tac/index/html. Also available on this rules link is the text of §97.1055, Accreditation Status, which describes how deficiencies in a district's programs monitored under the PBMAS may affect a district's accreditation status.

Performance
Indicators

This Page Intentionally Left Blank

SECTION III:

Bilingual Education (BE)/
English as a Second
Language (ESL) Indicators

This Page Intentionally Left Blank

BE/ESL Indicator #1(i-v): BE English TAKS Passing Rate

This indicator is the percent of Bilingual Education (BE) students passing the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies, Writing) in English.

CALCULATION

For each district, calculate the district BE English TAKS passing rate for each TAKS subject:

$$\text{District BE passing rate for an English TAKS [subject (i-v)] test} = \frac{\text{District number of BE students who passed the English TAKS [subject (i-v)] test in spring 2008}}{\text{District number of BE students who took the English TAKS [subject (i-v)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 BE English TAKS test takers in the subject area.
- Professional judgment special analysis is available in the Mathematics and Reading/ELA subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) **and** also reported by the district as participating in a state-approved **bilingual** program on the spring 2008 TAKS answer documents (Bilingual indicator code).

NOTES

- The BE English TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
1(i)	Mathematics	3-11	11
1(ii)	Reading/ELA	3-11	11
1(iii)	Science	5, 8, 10, 11	5, 8, 10, 11
1(iv)	Social Studies	8, 10, 11	8, 10, 11
1(v)	Writing	4, 7	

- **New!** TAKS (Accommodated) and Grade 8 Science results are included as shown in the table to the left.
- Required improvement is available for this indicator.
- Second administrations of Grades 3, 5, and 8 Reading and Grades 5 and 8 Mathematics are included.
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district BE English TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District BE English TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district BE English TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district BE English TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district BE English TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district BE English TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

* For the BE English TAKS Passing Rate Indicator, professional judgment special analysis is not available for Science, Social Studies, and Writing.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
1(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
1(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
1(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
1(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%
1(v)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

BE/ESL Indicator #2(i-v): ESL English TAKS Passing Rate

This indicator is the percent of English as a Second Language (ESL) students passing the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies, Writing) in English.

CALCULATION

For each district, calculate the district ESL English TAKS passing rate for each TAKS subject:

$$\frac{\text{District ESL passing rate for an English TAKS [subject (i-v)] test}}{\text{District number of ESL students who passed the English TAKS [subject (i-v)] test in spring 2008}} = \frac{\text{District number of ESL students who passed the English TAKS [subject (i-v)] test in spring 2008}}{\text{District number of ESL students who took the English TAKS [subject (i-v)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 ESL English TAKS test takers in the subject area.
- Professional judgment special analysis is available in the Mathematics, Reading/ELA, and Science subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as participating in a state-approved **ESL** program on the spring 2008 TAKS answer documents (ESL indicator code).

NOTES

- The ESL English TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
2(i)	Mathematics	3-11	11
2(ii)	Reading/ELA	3-11	11
2(iii)	Science	5, 8, 10, 11	5, 8, 10, 11
2(iv)	Social Studies	8, 10, 11	8, 10, 11
2(v)	Writing	4, 7	

- **New!** Professional judgment special analysis is available for science.
- **New!** TAKS (Accommodated) and Grade 8 Science results are included as shown in the table to the left.
- Required improvement is available for this indicator.
- Second administrations of Grades 3, 5, and 8 Reading and Grades 5 and 8 Mathematics are included.
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district ESL English TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District ESL English TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district ESL English TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district ESL English TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district ESL English TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district ESL English TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

* For the ESL English TAKS Passing Rate Indicator, professional judgment special analysis is not available for Social Studies and Writing.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
2(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
2(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
2(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
2(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%
2(v)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

BE/ESL Indicator #3(i-iv): BE Spanish TAKS Passing Rate

This indicator is the percent of Bilingual Education (BE) students passing the TAKS subject test (Mathematics, Reading, Science, Writing) in Spanish.

CALCULATION

For each district, calculate the district BE Spanish TAKS passing rate for each TAKS subject:

$$\text{District BE passing rate for a Spanish TAKS [subject (i-iv)] test} = \frac{\text{District number of BE students who passed the Spanish TAKS [subject (i-iv)] test in spring 2008}}{\text{District number of BE students who took the Spanish TAKS [subject (i-iv)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 BE Spanish TAKS test takers in the subject area.
- Professional judgment special analysis is available in the Mathematics, Reading, and Science subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as participating in a state-approved **bilingual** program on the spring 2008 TAKS answer documents (Bilingual indicator code).

NOTES

- The BE Spanish TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
3(i)	Mathematics	3-6	
3(ii)	Reading	3-6	
3(iii)	Science	5	5
3(iv)	Writing	4	

- **New!** TAKS (Accommodated) results are included as shown in the table to the left.
- Required improvement is available for this indicator.
- Second administrations of Grades 3 and 5 Reading and Grade 5 Mathematics are included.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district BE Spanish TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District BE Spanish TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district BE Spanish TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district BE Spanish TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district BE Spanish TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district BE Spanish TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

* For the BE Spanish TAKS Passing Rate Indicator, professional judgment special analysis is not available for Writing.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
3(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
3(ii)	Reading	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
3(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
3(iv)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

BE/ESL Indicator #4(i-iv): ESL Spanish TAKS Passing Rate

This indicator is the percent of English as a Second Language (ESL) students passing the TAKS subject test (Mathematics, Reading, Science, Writing) in Spanish.

CALCULATION

For each district, calculate the district ESL Spanish TAKS passing rate for each TAKS subject:

$$\frac{\text{District ESL passing rate for a Spanish TAKS [subject (i-iv)] test}}{\text{District number of ESL students who passed the Spanish TAKS [subject (i-iv)] test in spring 2008}} = \frac{\text{District number of ESL students who passed the Spanish TAKS [subject (i-iv)] test in spring 2008}}{\text{District number of ESL students who took the Spanish TAKS [subject (i-iv)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 ESL Spanish TAKS test takers in the subject area.
- Professional judgment special analysis is available in the Mathematics and Reading subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as participating in a state-approved **ESL** program on the spring 2008 TAKS answer documents (ESL indicator code).

NOTES

- The ESL Spanish TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
4(i)	Mathematics	3-6	
4(ii)	Reading	3-6	
4(iii)	Science	5	5
4(iv)	Writing	4	

- **New!** TAKS (Accommodated) results are included as shown in the table to the left.
- Required improvement is available for this indicator.
- Second administrations of Grades 3 and 5 Reading and Grade 5 Mathematics are included.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district ESL Spanish TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District ESL Spanish TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA and ORI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district ESL Spanish TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district ESL Spanish TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district ESL Spanish TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district ESL Spanish TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

* For the ESL Spanish TAKS Passing Rate Indicator, professional judgment special analysis is not available for Science and Writing.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
4(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
4(ii)	Reading	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
4(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
4(iv)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

BE/ESL Indicator #5(i-v): LEP Year-After-Exit (YAE) English TAKS Passing Rate

This indicator is the percent of former limited English proficient (LEP) students passing the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies, Writing) in English.

CALCULATION

For each district, calculate the district LEP YAE English TAKS passing rate for each TAKS subject:

$$\text{District LEP YAE passing rate for an English TAKS [subject (i-v)] test} = \frac{\text{District number of students in their first year of monitoring who passed the English TAKS [subject (i-v)] test in spring 2008}}{\text{District number of students in their first year of monitoring who took the English TAKS [subject (i-v)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

DATA SOURCE

- Minimum Size Requirements: At least 30 LEP YAE English TAKS test takers in the subject area.
- Professional judgment special analysis is not available for this indicator.
- Three years of data are available for analysis under this indicator.

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district on the spring 2008 TAKS answer documents as having met the criteria for BE/ESL program exit, no longer classified as LEP in PEIMS, and in their first year of monitoring (**M1** indicator code).

NOTES

- The LEP YAE English TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
5(i)	Mathematics	3-11	11
5(ii)	Reading/ELA	3-11	11
5(iii)	Science	5, 8, 10, 11	5, 8, 10, 11
5(iv)	Social Studies	8, 10, 11	8, 10, 11
5(v)	Writing	4, 7	

- **New!** TAKS (Accommodated) and Grade 8 Science results are included as shown in the table to the left.
- Second administrations of Grades 3, 5, and 8 Reading and Grades 5 and 8 Mathematics are included.
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district LEP YAE English TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District LEP YAE English TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district LEP YAE English TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district LEP YAE English TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district LEP YAE English TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district LEP YAE English TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
5(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
5(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
5(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
5(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%
5(v)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

BE/ESL Indicator #6: LEP Participation Rate

This indicator is the percent of limited English proficient (LEP) students taking the TAKS, TAKS (Accommodated), TAKS-M, or TAKS-Alt in every subject (Mathematics, Reading/ELA, Science, Social Studies, Writing).

CALCULATION

For each district, calculate the district LEP participation rate:

$$\text{District LEP participation rate} = \frac{\text{District number of LEP students (Grades 3-11) tested on TAKS, TAKS (Accommodated), TAKS-M, or TAKS-Alt for all subjects in spring 2008}}{\text{District number of LEP students (Grades 3-11) for whom a student assessment answer document or finalized TAKS-Alt assessment was submitted in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 LEP students (Grades 3-11) for whom a student assessment answer document was submitted in spring 2008.
- The PBMAS special analysis process is not applicable to this indicator.
- One year of data is available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the participation of students reported as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as **LEP** on the spring 2008 Student Assessment answer documents (LEP indicator code).

NOTES

- **New!** Students who are recent immigrants with limited English proficiency and who qualify for and take a one-time LEP postponement of the exit level TAKS tests according to 19 TAC §101.1005 are not included in the calculation of this indicator in either the numerator or denominator.
- LEP exempt students taking a linguistically accommodated administration of TAKS, TAKS (Accommodated), or TAKS-M are not included in the numerator of this indicator.
- The LEP participation rate is based on results from students in the following grades and includes the TAKS-M subjects field-tested in spring 2008:

Subject Test	TAKS	TAKS (Accommodated)	TAKS-M	TAKS-Alt
Mathematics	3-11	3-11	3-11	3-11
Reading/ELA	3-11	3-11	3-11	3-11
Science	5, 8, 10, 11	5, 8, 10, 11	5, 8, 10, 11	5, 8, 10, 11
Social Studies	8, 10, 11	8, 10, 11	8, 10, 11	8, 10, 11
Writing	4, 7	4, 7	4, 7	4, 7

PERFORMANCE LEVEL ASSIGNMENT

The district LEP participation rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District LEP Participation Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned	Performance Level = 0 (met standard)	Performance Level = 1	Performance Level = 2	Performance Level = 3
PL not equal to 0 and district does not meet minimum size requirements.	The district LEP participation rate is 82.0% or higher. Minimum size requirements not applicable if PL = 0.	The district LEP participation rate is between 75.0% and 81.9%.	The district LEP participation rate is between 64.0% and 74.9%.	The district LEP participation rate is 63.9% or lower.

The PBMAS special analysis process is not applicable to this indicator. Performance levels are only assigned through standard analysis.

BE/ESL Indicator #7: LEP Annual Dropout Rate (Grades 7-12)

This indicator is the percent of limited English proficient (LEP) students (Grades 7-12) who dropped out in 2006-2007.

CALCULATION

For each district, calculate the district Grades 7-12 LEP annual dropout rate:

$$\text{District Grades 7-12 LEP annual dropout rate} = \frac{\text{District number of LEP students (Grades 7-12) who dropped out in 2006-2007}}{\text{District number of LEP students (Grades 7-12) in attendance in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 LEP students (Grades 7-12) in attendance and at least 5 LEP dropouts in 2006-2007.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the annual dropout rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address: <http://www.tea.state.tx.us/research/>.

NOTES

- **New!** Required improvement is available for this indicator.
- Dropout data are for the 2006-2007 school year.

PERFORMANCE LEVEL ASSIGNMENT

The district Grades 7-12 LEP annual dropout rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District LEP Annual Dropout Rate (Grades 7-12)				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and 0RI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district Grades 7-12 LEP annual dropout rate is 2.0% or lower. Minimum size requirements not applicable if PL = 0.	The district Grades 7-12 LEP annual dropout rate is between 2.1% and 5.0%.	The district Grades 7-12 LEP annual dropout rate is between 5.1% and 8.0%.	The district Grades 7-12 LEP annual dropout rate is 8.1% or higher.

BE/ESL Indicator #8: LEP RHSP/DAP Diploma Rate

This indicator is the percent of limited English proficient (LEP) students graduating with a Recommended High School Program (RHSP) or Distinguished Achievement Program (DAP) diploma.

CALCULATION

For each district, calculate the percent of LEP students graduating with a Recommended High School Program (RHSP) or Distinguished Achievement Program (DAP) diploma:

$$\begin{array}{l} \text{District LEP} \\ \text{RHSP/DAP} \\ \text{diploma rate} \end{array} = \frac{\text{District number of LEP students who graduated with a RHSP or DAP diploma in 2006-2007}}{\text{District number of LEP students who graduated in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 LEP graduates.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the RHSP/DAP diploma rate, see the *2008 Accountability Manual* available at the following web address: <http://www.tea.state.tx.us/perfreport/account/2008/manual/>.

NOTES

- Required improvement is available for this indicator.
- Graduation data are for the 2006-2007 school year.

PERFORMANCE LEVEL ASSIGNMENT

The district LEP RHSP/DAP diploma rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District LEP RHSP/DAP Diploma Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes OSA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district LEP RHSP/DAP diploma rate is 60.0% or higher. Minimum size requirements not applicable if PL = 0.	The district LEP RHSP/DAP diploma rate is between 50.0% and 59.9%.	The district LEP RHSP/DAP diploma rate is between 30.1% and 49.9%.	The district LEP RHSP/DAP diploma rate is 30.0% or lower.

BE/ESL Indicator #9: LEP Graduation Rate

This indicator is the percent of limited English proficient (LEP) students who graduated with a high school diploma in four years.

CALCULATION

For each district, calculate the percent of LEP students graduating with a high school diploma in four years:

$$\text{District LEP graduation rate} = \frac{\text{District number of LEP students in the Grade 9 cohort who graduated with a high school diploma by 2006-2007}}{\text{District number of LEP students in the Class of 2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the LEP graduation rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address: <http://www.tea.state.tx.us/research/>.

NOTES

- This is a Report Only indicator for 2008. The district LEP graduation rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Graduation data are for the class of 2007.

This Page Intentionally Left Blank

SECTION IV:

Career and Technical Education (CTE) Indicators

This Page Intentionally Left Blank

CTE Indicator #1(i-iv): CTE TAKS Passing Rate

This indicator is the percent of Career and Technical Education (CTE) students (Grades 9-11) passing the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies).

CALCULATION

For each district, calculate the district CTE TAKS passing rate for each TAKS subject:

$$\text{District CTE passing rate for a TAKS [subject (i-iv)] test} = \frac{\text{District number of CTE students (Grades 9-11) who passed the TAKS [subject (i-iv)] test in spring 2008}}{\text{District number of CTE students (Grades 9-11) who took the TAKS [subject (i-iv)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 CTE TAKS test takers in the subject area.
- Professional judgment special analysis is available in the Mathematics, Reading/ELA, and Science subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as a **2** (Coherent Sequence) or **3** (Tech Prep) participant on the spring 2008 TAKS answer documents (Career and Technical Education indicator code).

NOTES

- The CTE TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
1(i)	Mathematics	9-11	11
1(ii)	Reading/ELA	9-11	11
1(iii)	Science	10, 11	10, 11
1(iv)	Social Studies	10, 11	10, 11

- **New!** TAKS (Accommodated) results are included as shown in the table to the left.
- Only Career and Technical Education students with status codes 2 (Coherent Sequence) or 3 (Tech Prep) are included in the calculation of this indicator. (See also Data Source above.)
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.
- Required improvement is available for this indicator.

PERFORMANCE LEVEL ASSIGNMENT

The district CTE TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District CTE TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district CTE TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district CTE TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district CTE TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district CTE TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

* For the CTE TAKS Passing Rate Indicator, professional judgment special analysis is not available for Social Studies.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
1(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
1(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
1(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
1(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

CTE Indicator #2(i-iv): CTE LEP TAKS Passing Rate

This indicator is the percent of Career and Technical Education (CTE) students (Grades 9-11) with limited English proficiency (LEP) who passed the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies).

CALCULATION

For each district, calculate the district CTE LEP TAKS passing rate for each TAKS subject:

$$\text{District CTE LEP passing rate for a TAKS [subject (i-iv)] test} = \frac{\text{District number of CTE LEP students (Grades 9-11) who passed the TAKS [subject (i-iv)] test in spring 2008}}{\text{District number of CTE LEP students (Grades 9-11) who took the TAKS [subject (i-iv)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 CTE LEP TAKS test takers in the subject area.
- Professional judgment special analysis is not available for this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as **LEP** and a **2** (Coherent Sequence) or **3** (Tech Prep) participant on the spring 2008 TAKS answer documents (LEP and Career and Technical Education indicator codes).

NOTES

- The CTE LEP TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
2(i)	Mathematics	9-11	11
2(ii)	Reading/ELA	9-11	11
2(iii)	Science	10, 11	10, 11
2(iv)	Social Studies	10, 11	10, 11

- **New!** TAKS (Accommodated) results are included as shown in the table to the left.
- Required improvement is available for this indicator.
- Only Career and Technical Education students with status codes 2 (Coherent Sequence) or 3 (Tech Prep) are included in the calculation of this indicator. (See also Data Source above.)
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district CTE LEP TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District CTE LEP TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district CTE LEP TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district CTE LEP TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district CTE LEP TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district CTE LEP TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
2(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
2(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
2(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
2(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

CTE Indicator #3(i-iv): CTE Economically Disadvantaged TAKS Passing Rate

This indicator is the percent of Career and Technical Education (CTE) students (Grades 9-11) who are economically disadvantaged and who passed the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies).

CALCULATION

For each district, calculate the district CTE economically disadvantaged TAKS passing rate for each TAKS subject:

$$\text{District CTE economically disadvantaged passing rate for a TAKS [subject (i-iv)] test} = \frac{\text{District number of CTE economically disadvantaged students (Grades 9-11) who passed the TAKS [subject (i-iv)] test in spring 2008}}{\text{District number of CTE economically disadvantaged students (Grades 9-11) who took the TAKS [subject (i-iv)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 CTE economically disadvantaged TAKS test takers in the subject area.
- Professional judgment special analysis is available in the Mathematics, Reading/ELA, and Science subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as **economically disadvantaged** and a **2** (Coherent Sequence) or **3** (Tech Prep) participant on the spring 2008 TAKS answer documents (Economic Disadvantage and Career and Technical Education indicator codes).

NOTES

- The CTE economically disadvantaged TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS-Accommodated
3(i)	Mathematics	9-11	11
3(ii)	Reading/ELA	9-11	11
3(iii)	Science	10, 11	10, 11
3(iv)	Social Studies	10, 11	10, 11

- **New!** TAKS (Accommodated) results are included as shown in the table to the left.
- **New!** Professional judgment special analysis is available for Science.
- Required improvement is available for this indicator.
- Only Career and Technical Education students with status codes 2 (Coherent Sequence) or 3 (Tech Prep) are included in the calculation of this indicator. (See also Data Source above.)
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district CTE economically disadvantaged TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District CTE Economically Disadvantaged TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district CTE economically disadvantaged TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district CTE economically disadvantaged TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district CTE economically disadvantaged TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district CTE economically disadvantaged TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

** For the CTE Economically Disadvantaged TAKS Passing Rate Indicator, professional judgment special analysis is not available for Social Studies.*

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
3(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
3(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
3(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
3(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

CTE Indicator #4(i-iv): CTE Special Education TAKS Passing Rate

This indicator is the percent of Career and Technical Education (CTE) students (Grades 9-11) who receive special education services and who passed the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies).

CALCULATION

For each district, calculate the district CTE special education TAKS passing rate for each TAKS subject:

$$\text{District CTE special education passing rate for a TAKS [subject (i-iv)] test} = \frac{\text{District number of CTE special education students (Grades 9-11) who passed the TAKS [subject (i-iv)] test in spring 2008}}{\text{District number of CTE special education students (Grades 9-11) who took the TAKS [subject (i-iv)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 CTE special education TAKS test takers in the subject area.
- Professional judgment special analysis is not available for this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as a participant in a **special education** program and a **2** (Coherent Sequence) or **3** (Tech Prep) participant on the spring 2008 TAKS answer documents (Special Education and Career and Technical Education indicator codes).

NOTES

- The CTE special education TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
4(i)	Mathematics	9-11	11
4(ii)	Reading/ELA	9-11	11
4(iii)	Science	10, 11	10, 11
4(iv)	Social Studies	10, 11	10, 11

- **New!** TAKS (Accommodated) results are included as shown in the table to the left.
- Required improvement is available for this indicator.
- Only Career and Technical Education students with status codes 2 (Coherent Sequence) or 3 (Tech Prep) are included in the calculation of this indicator. (See also Data Source above.)
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district CTE special education TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District CTE Special Education TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district CTE special education TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district CTE special education TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district CTE special education TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district CTE special education TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
4(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
4(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
4(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
4(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

CTE Indicator #5(i-iv): CTE Tech Prep TAKS Passing Rate

This indicator is the percent of Career and Technical Education (CTE) students coded as Tech Prep program participants (Grades 9-11) who passed the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies).

CALCULATION

For each district, calculate the district CTE Tech Prep TAKS passing rate for each TAKS subject:

$$\text{District CTE Tech Prep passing rate for a TAKS [subject (i-iv)] test} = \frac{\text{District number of CTE Tech Prep program participants (Grades 9-11) who passed the TAKS [subject (i-iv)] test in spring 2008}}{\text{District number of CTE Tech Prep program participants (Grades 9-11) who took the TAKS [subject (i-iv)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 CTE Tech Prep TAKS test takers in the subject area.
- Professional judgment special analysis is available in the Mathematics, Reading/ELA, and Science subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as a **3** (Tech Prep) program participant on the spring 2008 TAKS answer documents (Career and Technical Education indicator code).

NOTES

- The CTE Tech Prep TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
5(i)	Mathematics	9-11	11
5(ii)	Reading/ELA	9-11	11
5(iii)	Science	10, 11	10, 11
5(iv)	Social Studies	10, 11	10, 11

- **New!** TAKS (Accommodated) results are included as shown in the table to the left.
- **New!** Professional judgment special analysis is available for Science.
- Required improvement is available for this indicator.
- Only Career and Technical Education students with status code 3 (Tech Prep) are included in the calculation of this indicator. (See also Data Source above.)
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.

PERFORMANCE LEVEL ASSIGNMENT

The district CTE Tech Prep TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District CTE Tech Prep TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district CTE Tech Prep TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district CTE Tech Prep TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district CTE Tech Prep TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district CTE Tech Prep TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

* For the CTE Tech Prep TAKS Passing Rate Indicator, professional judgment special analysis is not available for Social Studies.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
5(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
5(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
5(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
5(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

CTE Indicator #6: CTE Annual Dropout Rate (Grades 9-12)

This indicator is the percent of Career and Technical Education (CTE) students (Grades 9-12) who dropped out in 2006-2007.

CALCULATION

For each district, calculate the district Grades 9-12 CTE annual dropout rate:

$$\text{District Grades 9-12 CTE annual dropout rate} = \frac{\text{District number of CTE students (Grades 9-12) who dropped out in 2006-2007}}{\text{District number of CTE students (Grades 9-12) in attendance in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 CTE students (Grades 9-12) in attendance and at least 5 CTE dropouts in 2006-2007.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the annual dropout rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at <http://www.tea.state.tx.us/research/>.

NOTES

- **New!** Required improvement is available for this indicator.
- Only students with PEIMS CTE status codes 2 (Coherent Sequence), or 3 (Tech Prep) are included in the calculation of this indicator.
- Dropout data are for the 2006-2007 school year.

PERFORMANCE LEVEL ASSIGNMENT

The district Grades 9-12 CTE annual dropout rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District CTE Annual Dropout Rate (Grades 9-12)				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes OSA and ORI)	Performance Level = 1 (Also includes 1 SA)	Performance Level = 2 (Also includes 2 SA)	Performance Level = 3 (Also includes 3 SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district Grades 9-12 CTE annual dropout rate is 3.0% or lower. Minimum size requirements not applicable if PL = 0.	The district Grades 9-12 CTE annual dropout rate is between 3.1% and 6.0%.	The district Grades 9-12 CTE annual dropout rate is between 6.1% and 9.0%.	The district Grades 9-12 CTE annual dropout rate is 9.1% or higher.

CTE Indicator #7: CTE RHSP/DAP Diploma Rate

This indicator is the percent of Career and Technical Education (CTE) students graduating with a Recommended High School Program (RHSP) or Distinguished Achievement Program (DAP) diploma.

CALCULATION

For each district, calculate the percent of CTE students graduating with a Recommended High School Program (RHSP) or Distinguished Achievement Program (DAP) diploma:

$$\text{District CTE RHSP/DAP diploma rate} = \frac{\text{District number of CTE students who graduated with a RHSP or DAP diploma in 2006-2007}}{\text{District number of CTE students who graduated in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 CTE graduates. (See Notes below.)
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the RHSP/DAP diploma rate, see the *2008 Accountability Manual* available at the following web address: <http://www.tea.state.tx.us/perfreport/account/2008/manual/>.

NOTES

- Required improvement is available for this indicator.
- Only students with PEIMS CTE status codes 2 (Coherent Sequence) or 3 (Tech Prep) are included in the calculation of this indicator.
- Graduation data are for the 2006-2007 school year.

PERFORMANCE LEVEL ASSIGNMENT

The district CTE RHSP/DAP diploma rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District CTE RHSP/DAP Diploma Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district CTE RHSP/DAP diploma rate is 70.0% or higher. Minimum size requirements not applicable if PL = 0.	The district CTE RHSP/DAP diploma rate is between 50.0% and 69.9%.	The district CTE RHSP/DAP diploma rate is between 30.1% and 49.9%.	The district CTE RHSP/DAP diploma rate is 30.0% or lower.

CTE Indicator #8: CTE Graduation Rate

This indicator is the percent of Career and Technical Education (CTE) students who graduated with a high school diploma in four years.

CALCULATION

For each district, calculate the percent of CTE students graduating with a high school diploma in four years:

$$\text{District CTE graduation rate} = \frac{\text{District number of CTE students in the Grade 9 cohort who graduated with a high school diploma by 2006-2007}}{\text{District number of CTE students in the Class of 2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the CTE graduation rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address: <http://www.tea.state.tx.us/research/>.

NOTES

- This is a Report Only indicator for 2008. The district CTE graduation rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Only students with PEIMS CTE status codes 2 (Coherent Sequence) or 3 (Tech Prep) are included in the calculation of this indicator.
- Graduation data are for the class of 2007.

CTE Indicator #9: CTE Nontraditional Courses—Male

This indicator is the percent of male students (Grades 9-12) completing Career and Technical Education (CTE) courses that are nontraditional for their gender.

CALCULATION

For each district, calculate the district CTE male nontraditional course completion rate:

$$\text{District male nontraditional course completion rate} = \frac{\text{District number of male CTE students (Grades 9-12) who completed male nontraditional courses in 2006-2007}}{\text{District number of CTE students (Grades 9-12) who completed male nontraditional courses in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- PEIMS fall 2006 snapshot data (110 Record).
- PEIMS summer 2007 data (415 Record).

NOTES

- This is a Report Only indicator for 2008. The district CTE male nontraditional course completion rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Students with PEIMS CTE status codes 1 (Career/Technology Elective), 2 (Coherent Sequence), or 3 (Tech Prep) are included in the calculation of this indicator.
- Course completion data are for the 2006-2007 school year.
- Each student is counted for each course completed. For example, a student completing five nontraditional courses is counted five times in this indicator.
- A list of CTE nontraditional courses is located in Appendix A of this manual.

CTE Indicator #10: CTE Nontraditional Courses—Female

This indicator is the percent of female students (Grades 9-12) completing Career and Technical Education (CTE) courses that are nontraditional for their gender.

CALCULATION

For each district, calculate the CTE female nontraditional course completion rate:

$$\text{District female nontraditional course completion rate} = \frac{\text{District number of female CTE students (Grades 9-12) who completed female nontraditional courses in 2006-2007}}{\text{District number of CTE students (Grades 9-12) who completed female nontraditional courses in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- PEIMS fall 2006 snapshot data (110 Record).
- PEIMS summer 2007 data (415 Record).

NOTES

- This is a Report Only indicator for 2008. The district CTE female nontraditional course completion rate is reported for district information and planning purposes. No performance levels are assigned for this indicator for 2008.
- Students with PEIMS CTE status codes 1 (Career/Technology Elective), 2 (Coherent Sequence), or 3 (Tech Prep) are included in the calculation of this indicator.
- Course completion data are for the 2006-2007 school year.
- Each student is counted for each course completed. For example, a student completing five nontraditional courses is counted five times in this indicator.
- A list of CTE nontraditional courses is located in Appendix A of this manual.

This Page Intentionally Left Blank

SECTION V

No Child Left Behind (NCLB) Indicators

This Page Intentionally Left Blank

NCLB Indicator #1(i-v): *New!* Title I, Part A TAKS Passing Rate

This indicator is the percent of Title I, Part A students passing the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies, Writing).

CALCULATION

For each district, calculate the district Title I, Part A TAKS passing rate for each TAKS subject:

$$\text{District Title I, Part A passing rate for a TAKS [subject (i-v)] test} = \frac{\text{District number of Title I, Part A students who passed the TAKS [subject (i-v)] test in spring 2008}}{\text{District number of Title I, Part A students who took the TAKS [subject (i-v)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 Title I, Part A TAKS test takers in the subject area.
- The PBMAS special analysis process is not applicable to this indicator.
- One year of data is available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as a **Title I, Part A** student on the spring 2008 TAKS answer documents (Title I, Part A indicator codes 6, 7, and 9).

NOTES

- The Title I, Part A TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
1(i)	Mathematics	3-11	11
1(ii)	Reading/ELA	3-11	11
1(iii)	Science	5, 8, 10, 11	5, 8, 10, 11
1(iv)	Social Studies	8, 10, 11	8, 10, 11
1(v)	Writing	4, 7	

- Second administrations of Grades 3, 5, and 8 Reading and Grades 5 and 8 Mathematics are included.
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.
- Spanish TAKS is included.

PERFORMANCE LEVEL ASSIGNMENT

The district Title I, Part A TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Title I, Part A TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned	Performance Level = 0 (met standard)	Performance Level = 1	Performance Level = 2	Performance Level = 3
PL not equal to 0 and district does not meet minimum size requirements.	The district Title I, Part A TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district Title I, Part A TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district Title I, Part A TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district Title I, Part A TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

The PBMAS special analysis process is not applicable to this indicator. Performance levels are only assigned through standard analysis.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
1(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
1(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
1(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
1(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%
1(v)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

NCLB Indicator #2: Title I, Part A Annual Dropout Rate (Grades 7-12)

This indicator is the percent of Title I, Part A students (Grades 7-12) who dropped out in 2006-2007.

CALCULATION

For each district, calculate the district Grades 7-12 Title I, Part A annual dropout rate:

$$\begin{array}{l} \text{District Grades 7-12} \\ \text{Title I, Part A} \\ \text{annual dropout rate} \end{array} = \frac{\text{District number of Title I, Part A students (Grades 7-12) who dropped out in 2006-2007}}{\text{District number of Title I, Part A students (Grades 7-12) in attendance in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- For additional information about data source and methods for calculating the annual dropout rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address: <http://www.tea.state.tx.us/research/>.

NOTES

- **New!** This is a Report Only indicator for 2008. The district Grades 7-12 Title I, Part A annual dropout rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Dropout data are for the 2006-2007 school year.

NCLB Indicator #3: Title I, Part A Graduation Rate

This indicator is the percent of Title I, Part A students who graduated with a high school diploma in four years.

CALCULATION

For each district, calculate the percent of Title I, Part A students graduating with a high school diploma in four years:

$$\text{District Title I, Part A graduation rate} = \frac{\text{District number of Title I, Part A students in the Grade 9 cohort who graduated with a high school diploma in 2006-2007}}{\text{District number of Title I, Part A students in the Class of 2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the Title I, Part A graduation rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address:
<http://www.tea.state.tx.us/research/>.

NOTES

- *New!* This is a Report Only indicator for 2008. The district Title I, Part A graduation rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Graduation data are for the 2006-2007 school year.

NCLB Indicator #4: Title I, Part A Discretionary DAEP Placements

This indicator is the potential disproportionate discretionary placement of Title I, Part A students in Disciplinary Alternative Education Programs (DAEPs).

CALCULATION

1. For each district, calculate the district **Title I, Part A discretionary DAEP placement rate**:

$$\begin{array}{l} \text{District Title I,} \\ \text{Part A} \\ \text{discretionary} \\ \text{DAEP placement} \\ \text{rate} \end{array} = \frac{\text{District number of discretionary DAEP placements of Title I, Part A students served in 2006-2007}}{\text{District number of Title I, Part A students in attendance in 2006-2007}}$$

2. For each district, calculate the **overall discretionary DAEP placement rate**:

$$\begin{array}{l} \text{District overall} \\ \text{discretionary} \\ \text{DAEP placement} \\ \text{rate} \end{array} = \frac{\text{District number of discretionary DAEP placements for all students in 2006-2007}}{\text{District number of all students in attendance in 2006-2007}}$$

3. For each district, a **difference score** is calculated by subtracting the district **overall discretionary DAEP placement rate** from the district **Title I, Part A discretionary DAEP placement rate**.

$$\begin{array}{l} \text{Difference} \\ \text{score} \end{array} = \text{District Title I, Part A discretionary DAEP placement rate} - \text{District overall discretionary DAEP placement rate}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- The data for this indicator’s denominators are based on the number of students (all students versus Title I, Part A students) reported by the district as **in attendance** (PEIMS summer 2007 data—400 Record and 461 Record). The data for this indicator’s numerators are based on the number of **discretionary DAEP placements** (all students versus Title I, Part A students) reported by the district (PEIMS summer 2007 data—425 Record.)

NOTES

- ***New!*** This is a Report Only indicator for 2008. The district Title I, Part A discretionary DAEP placement rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Discretionary DAEP placements are for the 2006-2007 school year.
- A student is counted as a Title I, Part A student in the first denominator and numerator if any 461-Title I, Part A Record was submitted by the district for the student.
- Note that discretionary DAEP placements are defined using the PEIMS 425 Record – Disciplinary Action Codes and Disciplinary Action Reason Codes as follows: Action Codes (Element ID E1005) = 07, 08, and 10 and Reason Codes (Element ID E1006) = 01, 10, 21, 22, 23, 33, 34, 41, 49, and 50. Only one action per incident number is counted under this indicator.

NCLB Indicator #5(i-v): Migrant TAKS Passing Rate

This indicator is the percent of migrant students passing the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies, Writing).

CALCULATION

For each district, calculate the district migrant TAKS passing rate for each TAKS subject:

$$\text{District migrant passing rate for a TAKS [subject (i-v)] test} = \frac{\text{District number of migrant students who passed the TAKS [subject (i-v)] test in spring 2008}}{\text{District number of migrant students who took the TAKS [subject (i-v)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 migrant TAKS test takers in the subject area.
- Professional judgment special analysis is available in the Mathematics, Reading/ELA, and Science subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as a **migrant** student on the spring 2008 TAKS answer documents (Migrant Student indicator code).

NOTES

- The migrant TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
5(i)	Mathematics	3-11	11
5(ii)	Reading/ELA	3-11	11
5(iii)	Science	5, 8, 10, 11	5, 8, 10, 11
5(iv)	Social Studies	8, 10, 11	8, 10, 11
5(v)	Writing	4, 7	

- *New!* TAKS (Accommodated) and Grade 8 Science results are included as shown in the table to the left.
- Second administrations of Grades 3, 5, and 8 Reading and Grades 5 and 8 Mathematics are included.
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.
- Spanish TAKS is included.
- Required improvement is available for this indicator.

PERFORMANCE LEVEL ASSIGNMENT

The district migrant TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Migrant TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district migrant TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district migrant TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district migrant TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district migrant TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

* For the Migrant TAKS Passing Rate Indicator, professional judgment special analysis is not available for Social Studies and Writing.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
5(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
5(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
5(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
5(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%
5(v)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

NCLB Indicator #6: Migrant Annual Dropout Rate (Grades 7-12)

This indicator is the percent of migrant students (Grades 7-12) who dropped out in 2006-2007.

CALCULATION

For each district, calculate the district Grades 7-12 migrant annual dropout rate:

$$\text{District Grades 7-12 migrant annual dropout rate} = \frac{\text{District number of migrant students (Grades 7-12) who dropped out in 2006-2007}}{\text{District number of migrant students (Grades 7-12) in attendance in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 migrant students (Grades 7-12) in attendance and at least 5 migrant dropouts in 2006-2007.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the annual dropout rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address: <http://www.tea.state.tx.us/research/>.

NOTES

- *New!* Required improvement is available for this indicator.
- Dropout data are for the 2006-2007 school year.

PERFORMANCE LEVEL ASSIGNMENT

The district Grades 7-12 migrant annual dropout rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Migrant Annual Dropout Rate (Grades 7-12)				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district Grades 7-12 migrant annual dropout rate is 2.0% or lower. Minimum size requirements not applicable if PL = 0.	The district Grades 7-12 migrant annual dropout rate is between 2.1% and 5.0%.	The district Grades 7-12 migrant annual dropout rate is between 5.1% and 8.0%.	The district Grades 7-12 migrant annual dropout rate is 8.1% or higher.

NCLB Indicator #7: Migrant RHSP/DAP Diploma Rate

This indicator is the percent of migrant students graduating with a Recommended High School Program (RHSP) or Distinguished Achievement Program (DAP) diploma.

CALCULATION

For each district, calculate the district percent of migrant students graduating with a Recommended High School Program (RHSP) or Distinguished Achievement Program (DAP) diploma:

$$\text{District migrant RHSP/DAP diploma rate} = \frac{\text{District number of migrant students who graduated with a RHSP or DAP diploma in 2006-2007}}{\text{District number of migrant students who graduated in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 migrant graduates.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the RHSP/DAP diploma rate, see the *2008 Accountability Manual* available at the following web address: <http://www.tea.state.tx.us/perfreport/account/2008/manual/>.

NOTES

- Required improvement is available for this indicator.
- Graduation data are for the 2006-2007 school year.

PERFORMANCE LEVEL ASSIGNMENT

The district migrant RHSP/DAP diploma rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Migrant RHSP/DAP Diploma Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes OSA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district migrant RHSP/DAP diploma rate is 70.0% or higher. Minimum size requirements not applicable if PL = 0.	The district migrant RHSP/DAP diploma rate is between 50.0% and 69.9%.	The district migrant RHSP/DAP diploma rate is between 30.1% and 49.9%.	The district migrant RHSP/DAP diploma rate is 30.0% or lower.

NCLB Indicator #8: Migrant Graduation Rate

This indicator is the percent of migrant students who graduated with a high school diploma in four years.

CALCULATION

For each district, calculate the percent of migrant students graduating with a high school diploma in four years:

$$\text{District migrant graduation rate} = \frac{\text{District number of migrant students in the Grade 9 cohort who graduated with a high school diploma by 2006-2007}}{\text{District number of migrant students in the Class of 2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- For additional information about data source and methods for calculating the migrant graduation rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address: <http://www.tea.state.tx.us/research/>.

NOTES

- This is a Report Only indicator for 2008. The district migrant graduation rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Graduation data are for the class of 2007.

This Page Intentionally Left Blank

SECTION VI

Special Education (SPED) Indicators

This Page Intentionally Left Blank

Special Education Indicator #1(i-v): SPED TAKS Passing Rate

This indicator is the percent of special education (SPED) students passing each TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies, Writing).

CALCULATION

For each district, calculate the district special education TAKS passing rate for each TAKS subject:

$$\text{District special education passing rate for a TAKS [subject (i-v)] test} = \frac{\text{District number of special education students who passed the TAKS [subject (i-v)] test in spring 2008}}{\text{District number of special education students who took the TAKS [subject (i-v)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 special education TAKS test takers in the subject area.
- Professional judgment special analysis is available for the Mathematics, Reading/ELA, and Science subject areas evaluated under this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as participating in a **special education** program on the spring 2008 TAKS answer documents (special education indicator code).

NOTES

- The special education TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS	TAKS (Accommodated)
1(i)	Mathematics	3-11	11
1(ii)	Reading/ELA	3-11	11
1(iii)	Science	5, 8, 10, 11	5, 8, 10, 11
1(iv)	Social Studies	8, 10, 11	8, 10, 11
1(v)	Writing	4, 7	

- **New!** TAKS (Accommodated) and Grade 8 Science results are included as shown in the table to the left.
- Second administrations of Grades 3, 5, and 8 Reading and Grades 5 and 8 Mathematics are included.
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.
- Spanish TAKS is included.
- Required improvement is available for this indicator.

PERFORMANCE LEVEL ASSIGNMENT

The district special education TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Special Education TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA, 3PJSA, and 3HH)
PL not equal to 0 and special analysis determination process* results in the assignment of a performance level of <i>Not Assigned</i> .	The district special education TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district special education TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district special education TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district special education TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject. (For the science and social studies subject areas only, a “hold harmless” provision will apply.**)

* For the Special Education TAKS Passing Rate Indicator, professional judgment special analysis is not available for Social Studies and Writing.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
1(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
1(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
1(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
1(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%
1(v)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

**Hold Harmless Provision for this Indicator Only: Any district that received a PL0, 0SA, 0PJSA or PL1, 1SA, 1PJSA in science or social studies in the 2007 PBMAS that would otherwise receive a PL3 in science or social studies in the 2008 PBMAS will receive a PL3HH. For 2008 PBMAS interventions purposes, the count of PL3HH will not be added to a district’s total PL3 count in the special education program area.

Special Education Indicator #2(i-v): SPED Year-After-Exit (YAE) TAKS Passing Rate

This indicator is the percent of special education students who passed the TAKS subject test (Mathematics, Reading/ELA, Science, Social Studies, Writing) one year after being exited from receiving special education (SPED) services.

CALCULATION

For each district, calculate the district SPED YAE TAKS passing rate for each TAKS subject:

$$\text{District SPED YAE passing rate for a TAKS [subject (i-v)] test} = \frac{\text{District number of students in their first year of exit from special education services who passed the TAKS [subject (i-v)] test in spring 2008}}{\text{District number of students in their first year of exit from special education services who took the TAKS [subject (i-v)] test in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 SPED YAE TAKS test takers in the subject area.
- Professional judgment special analysis is not available for this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the performance of students reported by the district as **enrolled** in the district on the PEIMS fall 2006 and 2007 snapshot date (110 Record) and also reported by the district on PEIMS fall 2007 snapshot date as no longer receiving special education services.

NOTES

- The SPED YAE TAKS passing rate for each TAKS subject test is based on results from students in the following grades:

Indicator	Subject Test	TAKS
2(i)	Mathematics	3-11
2(ii)	Reading/ELA	3-11
2(iii)	Science	5, 8, 10, 11
2(iv)	Social Studies	8, 10, 11
2(v)	Writing	4, 7

- **New!** Grade 8 Science results are included as shown in the table to the left.
- Second administrations of Grades 3, 5, and 8 Reading and Grades 5 and 8 Mathematics are included.
- Reading and ELA are combined.
- The accountability subset is used, and results are summed across grades.
- Spanish TAKS is included.
- Students must be in the same district in both school years to be included in the calculation of this indicator.

PERFORMANCE LEVEL ASSIGNMENT

The district SPED YAE TAKS passing rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District SPED YAE TAKS Passing Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district SPED YAE TAKS passing rate is at or above the state accountability standard for the subject. Minimum size requirements not applicable if PL = 0.	The district SPED YAE TAKS passing rate is 0.1 to 10.0 percentage points below the state accountability standard for the subject.	The district SPED YAE TAKS passing rate is 10.1 to 20.0 percentage points below the state accountability standard for the subject.	The district SPED YAE TAKS passing rate is at least 20.1 percentage points below the state accountability standard for the subject.

Note: The state *Academically Acceptable* accountability standard for each subject is used for this indicator. Those standards are listed below:

Indicator	Subject	Standard	PL = 0	PL = 1	PL = 2	PL = 3
2(i)	Mathematics	50.0%	≥ 50.0%	40.0% - 49.9%	30.0% - 39.9%	≤ 29.9%
2(ii)	Reading/ELA	70.0%	≥ 70.0%	60.0% - 69.9%	50.0% - 59.9%	≤ 49.9%
2(iii)	Science	45.0%	≥ 45.0%	35.0% - 44.9%	25.0% - 34.9%	≤ 24.9%
2(iv)	Social Studies	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%
2(v)	Writing	65.0%	≥ 65.0%	55.0% - 64.9%	45.0% - 54.9%	≤ 44.9%

Special Education Indicator #3: SPED TAKS/TAKS (Accommodated) Participation Rate

This indicator is the percent of special education (SPED) students (Grades 3-11) tested on TAKS or TAKS (Accommodated) in all subjects (Mathematics, Reading/ELA, Science, Social Studies, Writing).

CALCULATION

For each district, calculate the district special education TAKS/TAKS (Accommodated) participation rate:

$$\text{District special education TAKS/TAKS (Accommodated) participation rate} = \frac{\text{District number of students (Grades 3-11) served in special education tested on TAKS or TAKS (Accommodated) for all subjects in spring 2008}}{\text{District number of students (Grades 3-11) served in special education for whom a student assessment answer document or finalized TAKS-Alt assessment was submitted in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 SPED students (Grades 3-11) for whom a student assessment answer document was submitted in spring 2008.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the participation of students reported as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) **and** also reported by the district as participating in a **special education** program on the spring 2008 student assessment answer documents (special education indicator code).

NOTES

- The special education TAKS/TAKS (Accommodated) participation rate is based on results from students in the following grades:

Subject Test	TAKS	TAKS (Accommodated)
Mathematics	3-11	3-11
Reading/ELA	3-11	3-11
Science	5, 8, 10, 11	5, 8, 10, 11
Social Studies	8, 10, 11	8, 10, 11
Writing	4, 7	4, 7

PERFORMANCE LEVEL ASSIGNMENT

The district SPED TAKS/TAKS (Accommodated) participation rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District SPED TAKS/TAKS (Accommodated) Participation Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district SPED TAKS/TAKS (Accommodated) participation rate is 20.0% or higher. Minimum size requirements not applicable if PL = 0.	The district SPED TAKS/TAKS (Accommodated) participation rate is between 8.0% and 19.9%.	The district SPED TAKS/TAKS (Accommodated) participation rate is between 5.0% and 7.9%.	The district SPED TAKS/TAKS (Accommodated) participation rate is less than 5.0%.

Special Education Indicator #4: SPED TAKS-M Participation Rate

This indicator is the percent of special education students (Grades 3-11) tested on TAKS-M in all subjects for which the TAKS-M is available (Mathematics, Reading/ELA, Science, Social Studies, Writing).

CALCULATION

For each district, calculate the district special education TAKS-M participation rate:

$$\text{District special education TAKS-M participation rate} = \frac{\text{District number of students (Grades 3-11) served in special education tested on TAKS-M for all subjects for which TAKS-M was available in spring 2008}}{\text{District number of students (Grades 3-11) served in special education for whom a student assessment answer document or finalized TAKS-Alt assessment was submitted in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- The data for this indicator are based on the participation of students reported as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as participating in a **special education** program on the spring 2008 student assessment answer documents (special education indicator code).

NOTES

- **New!** This is a Report Only indicator for 2008. The district SPED TAKS-M participation rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- The special education TAKS-M participation rate is based on results from students in the following grades and includes the TAKS-M subjects field-tested in spring 2008:

Subject Test	Grade Levels
Mathematics	3-11
Reading/ELA	3-11
Science	5, 8, 10, 11
Social Studies	8, 10, 11
Writing	4, 7

Special Education Indicator #5: SPED TAKS-Alt Participation Rate

This indicator is the percent of special education (SPED) students (Grades 3-11) tested on TAKS-Alt in all subjects (Mathematics, Reading/ELA, Science, Social Studies, Writing).

CALCULATION

For each district, calculate the district special education TAKS-Alt participation rate:

$$\text{District special education TAKS-Alt participation rate} = \frac{\text{District number of students (Grades 3-11) served in special education tested on TAKS-Alt for all subjects in spring 2008}}{\text{District number of students (Grades 3-11) served in special education for whom a student assessment answer document or finalized TAKS-Alt assessment was submitted in spring 2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- The data for this indicator are based on the participation of students reported as **enrolled** in the district on the PEIMS fall 2007 snapshot date (110 Record) and also reported by the district as participating in a **special education** program on the spring 2008 student assessment answer documents (special education indicator code).

NOTES

- **New!** This is a Report Only indicator for 2008. The district SPED TAKS-Alt participation rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- The special education TAKS-Alt participation rate is based on results from students in the following grades:

Subject Test	Grade Levels
Mathematics	3-11
Reading/ELA	3-11
Science	5, 8, 10, 11
Social Studies	8, 10, 11
Writing	4, 7

Special Education Indicator #6: SPED 3-5 Year-Olds Less Restrictive Environment Placement Rate

This indicator is the percent of students ages 3-5 served in special education who are placed in less restrictive environments along the Least Restrictive Environment continuum.

CALCULATION

For each district, calculate the district placement rate for students ages 3-5 years old in less restrictive environments:

$$\text{District 3-5 year-olds less restrictive environment placement rate} = \frac{\text{District number of students ages 3-5 served in special education who were placed in less restrictive environments in 2007-2008}}{\text{District number of students ages 3-5 served in special education in 2007-2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum size requirements: At least 30 students ages 3-5 served in special education.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the placement of special education students reported by the district as **enrolled** in the district and placed in either **40** or **41** instructional settings (PEIMS fall 2007 snapshot data; 110 Record and 163 Record, Element ID E0173).

NOTES

- Required improvement is available for this indicator.
- PEIMS setting codes **40 (mainstream)** and **41 (receive resource room services less than 21% of the day)** are the environments that are considered less restrictive for the purposes of this indicator.
- Students coded in PEIMS under the instructional setting/arrangement codes 02 (Hospital Class), 81-89 (Residential Care and Treatment Facility), and 30 (School for Persons with Mental Retardation) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS code on the 163 Record (Element ID E0833) is 1 (Enrolled in the regional day school program < 50% of the day) or 2 (Enrolled in the regional day school program ≥ 50% of the day) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.
- The student's age is determined as of September 1, 2007, for this indicator and is derived from the 101 Record (Element ID E0006).

PERFORMANCE LEVEL ASSIGNMENT

The district 3-5 year-olds less restrictive environment placement rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District 3-5 Year-Olds Less Restrictive Environment Placement Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district placement rate in less restrictive environments is 11.0% or higher. Minimum size requirements not applicable if PL = 0.	The district placement rate in less restrictive environments is between 4.1% and 10.9%.	The district placement rate in less restrictive environments is between 1.6% and 4.0%.	The district placement rate in less restrictive environments is 1.5% or lower.

Special Education Indicator #7: SPED 6-11 Year-Olds Less Restrictive Environment Placement Rate

This indicator is the percent of students ages 6-11 served in special education who are placed in less restrictive environments along the Least Restrictive Environment continuum.

CALCULATION

For each district, calculate the district placement rate for students ages 6-11 years old in less restrictive environments:

$$\text{District 6-11 year-olds less restrictive environment placement rate} = \frac{\text{District number of students ages 6-11 served in special education who were placed in less restrictive environments in 2007-2008}}{\text{District number of students ages 6-11 served in special education in 2007-2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 students ages 6-11 served in special education.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the placement of special education students reported by districts as **enrolled** in the district and placed in either **40** or **41** instructional settings (PEIMS fall 2007 snapshot data; 110 Record and 163 Record, Element ID E0173).

NOTES

- **New!** Required improvement is available for this indicator.
- PEIMS setting codes **40 (mainstream)** and **41 (receive resource room services less than 21% of the day)** are the environments that are considered less restrictive for the purposes of this indicator.
- Students coded in PEIMS under the instructional setting/arrangement codes 02 (Hospital Class), 81-89 (Residential Care and Treatment Facility), and 30 (School for Persons with Mental Retardation) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS code on the 163 Record (Element ID E0833) is 1 (Enrolled in the regional day school program < 50% of the day) or 2 (Enrolled in the regional day school program ≥ 50% of the day) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.
- The student's age is determined as of September 1, 2007, for this indicator and is derived from the 101 Record (Element ID E0006).

PERFORMANCE LEVEL ASSIGNMENT

The district 6-11 year-olds less restrictive environment placement rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District 6-11 Year-Olds Less Restrictive Environment Placement Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district placement rate in less restrictive environments is 25.0% or higher. Minimum size requirements not applicable if PL = 0.	The district placement rate in less restrictive environments is between 17.5% and 24.9%.	The district placement rate in less restrictive environments is between 9.5% and 17.4%.	The district placement rate in less restrictive environments is 9.4% or lower.

Special Education Indicator #8: SPED 12-21 Year-Olds Less Restrictive Environment Placement Rate

This indicator is the percent of students ages 12-21 served in special education who are placed in less restrictive environments along the Least Restrictive Environment continuum.

CALCULATION

For each district, calculate the district placement rate for students ages 12-21 years old in less restrictive environments:

$$\begin{array}{l}
 \text{District 12-21} \\
 \text{year-olds less} \\
 \text{restrictive} \\
 \text{environment} \\
 \text{placement rate}
 \end{array}
 =
 \frac{\text{District number of students ages 12-21 served in special education who were placed in less restrictive environments in 2007-2008}}{\text{District number of students ages 12-21 served in special education in 2007-2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 students ages 12-21 served in special education.
- Professional judgment special analysis is available for this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the placement of special education students reported by districts as **enrolled** in the district and placed in either **40** or **41** instructional settings (PEIMS fall 2007 snapshot data; 110 Record and 163 Record, Element ID E0173).

NOTES

- PEIMS setting codes **40 (mainstream)** and **41 (receive resource room services less than 21% of the day)** are the environments that are considered less restrictive for the purposes of this indicator.
- Students coded in PEIMS under the instructional setting/arrangement codes 02 (Hospital Class), 81-89 (Residential Care and Treatment Facility), and 30 (School for Persons with Mental Retardation) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS code on the 163 Record (Element ID E0833) is 1 (Enrolled in the regional day school program < 50% of the day) or 2 (Enrolled in the regional day school program ≥ 50% of the day) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.
- The student’s age is determined as of September 1, 2007, for this indicator and is derived from the 101 Record (Element ID E0006).
- Required improvement is available for this indicator.

PERFORMANCE LEVEL ASSIGNMENT

The district 12-21 year-olds less restrictive environment placement rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District 12-21 Year-Olds Less Restrictive Environment Placement Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and ORI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district placement rate in less restrictive environments is 46.5% or higher. Minimum size requirements not applicable if PL = 0.	The district placement rate in less restrictive environments is between 38.0% and 46.4%.	The district placement rate in less restrictive environments is between 26.5% and 37.9%.	The district placement rate in less restrictive environments is 26.4% or lower.

Special Education Indicator #9: SPED Annual Dropout Rate (Grades 7-12)

This indicator is the percent of students (Grades 7-12) served in special education who dropped out in 2006-2007.

CALCULATION

For each district, calculate the district Grades 7-12 special education annual dropout rate:

$$\begin{array}{l} \text{District Grades} \\ \text{7-12 special} \\ \text{education annual} \\ \text{dropout rate} \end{array} = \frac{\text{District number of students served in special education (Grades 7-12) who dropped out in 2006-2007}}{\text{District number of students served in special education (Grades 7-12) in attendance in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 students (Grades 7-12) in attendance served in special education and at least 5 dropouts served in special education in 2006-2007.
- Professional judgment special analysis is not available for this indicator.
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the annual dropout rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address: <http://www.tea.state.tx.us/research/>.

NOTES

- **New!** Required improvement is available for this indicator.
- Dropout data are for the 2006-2007 school year.

PERFORMANCE LEVEL ASSIGNMENT

The district Grades 7-12 special education annual dropout rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Special Education Annual Dropout Rate (Grades 7-12)				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA)	Performance Level = 0 (met standard) (Also includes 0SA and ORI)	Performance Level = 1 (Also includes 1SA)	Performance Level = 2 (Also includes 2SA)	Performance Level = 3 (Also includes 3SA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district Grades 7-12 special education annual dropout rate is 2.0% or lower. Minimum size requirements not applicable if PL = 0.	The district Grades 7-12 special education annual dropout rate is between 2.1% and 5.0%.	The district Grades 7-12 special education annual dropout rate is between 5.1% and 8.0%.	The district Grades 7-12 special education annual dropout rate is 8.1% or higher.

Special Education Indicator #10: SPED RHSP/DAP Diploma Rate

This indicator is the percent of students served in special education graduating with a Recommended High School Program (RHSP) or Distinguished Achievement Program (DAP) diploma.

CALCULATION

For each district, calculate the district percent of students served in special education graduating with a RHSP or DAP diploma:

$$\text{District special education RHSP/DAP diploma rate} = \frac{\text{District number of students served in special education who graduated with a RHSP or DAP diploma in 2006-2007}}{\text{District number of students served in special education who graduated in 2006-2007}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 special education graduates.
- Limited professional judgment special analysis is available for districts with residential facilities in their attendance zones who have registered those facilities with the residential facilities data collection application called “RF Tracker.”
- Two years of data are available for analysis under this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the RHSP/DAP diploma rate, see the *2008 Accountability Manual* available at the following web address: <http://www.tea.state.tx.us/perfreport/account/2008/manual/>.

NOTES

- Required improvement is available for this indicator.
- Graduation data are for the 2006-2007 school year.

The district special education RHSP/DAP diploma rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District SPED RHSP/DAP Diploma Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis process results in the assignment of a performance level of <i>Not Assigned</i> .	The district SPED RHSP/DAP diploma rate is 16.5% or higher. Minimum size requirements not applicable if PL = 0.	The district SPED RHSP/DAP diploma rate is between 6.5% and 16.4%.	The district SPED RHSP/DAP diploma rate is between 1.5% and 6.4%.	The district SPED RHSP/DAP diploma rate is 1.4% or lower.

Limited professional judgment special analysis is available for districts with residential facilities in their attendance zones who have registered those facilities with the residential facilities data collection application called “RF Tracker.”

Special Education Indicator #11: SPED Graduation Rate

This indicator is the percent of students served in special education who graduated with a high school diploma in four years.

CALCULATION

For each district, calculate the percent of students served in special education graduating with a high school diploma in four years:

$$\text{District special education graduation rate} = \frac{\text{District number of students in the Grade 9 cohort served in special education who graduated with a high school diploma by 2006-2007}}{\text{District number of students in the Class of 2007 served in special education.}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size requirements and the PBMAS special analysis process do not apply to this indicator.

DATA SOURCE

- For additional information about data sources and methods for calculating the special education graduation rate, see the *Secondary School Completion and Dropouts in Texas Public Schools* report available at the following web address:
<http://www.tea.state.tx.us/research/>.

NOTES

- This is a Report Only indicator for 2008. The district special education graduation rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Graduation data are for the class of 2007.

This Page Intentionally Left Blank

Special Education Indicator #12: SPED Identification

This indicator is the percent of students identified to receive special education (SPED) services.

CALCULATION

For each district, calculate the district percent of students receiving special education services as follows:

$$\text{District special education identification rate} = \frac{\text{District number of special education students enrolled in 2007-2008}}{\text{District number of students enrolled in 2007-2008}}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Minimum Size Requirements: At least 30 students enrolled in the district and at least 30 students identified to receive special education services.
- The PBMAS special analysis process is not applicable to this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the number of students reported by the district as **enrolled** in the district and receiving **special education** services (PEIMS fall 2007 snapshot data; 110 Record and 163 Record).

NOTES

- Students coded in PEIMS under the instructional setting/arrangement codes 02 (Hospital Class), 30 (School for Persons with Mental Retardation), 31, 32, 34 (ECI 0-2), and 81-89 (Residential Care and Treatment Facility) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS code on the 163 Record (Element ID E0833) is 1 (Enrolled in the regional day school program < 50% of the day) or 2 (Enrolled in the regional day school program ≥ 50% of the day) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.
- Required improvement is available for this indicator.

PERFORMANCE LEVEL ASSIGNMENT

The district-level special education identification rate is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Special Education Identification Rate				
Performance Level (PL) Assignments				
Performance Level = Not Assigned	Performance Level = 0 (met standard) (Also includes ORI)	Performance Level = 1	Performance Level = 2	Performance Level = 3
PL not equal to 0 and district does not meet minimum size requirements.	The district identification of students to receive special education services is 8.5% or lower. Minimum size requirements not applicable if PL = 0.	The district identification of students to receive special education services is between 8.6% and 12.0%.	The district identification of students to receive special education services is between 12.1% and 16.0%.	The district identification of students to receive special education services is 16.1% or higher.

The PBMAS special analysis process is not applicable to this indicator. Performance levels are only assigned through standard analysis.

Special Education Indicator #13: SPED African American Representation

This indicator is the potential disproportion of African American students served in special education.

CALCULATION

- For each district, calculate the district **special education African American percentage**:

$$\text{District special education African American percentage} = \frac{\text{District number of African American students served in special education in 2007-2008}}{\text{District number of special education students enrolled in 2007-2008}}$$

- For each district, calculate the district **overall African American percentage**:

$$\text{District overall African American percentage} = \frac{\text{District number of African American students enrolled in 2007-2008}}{\text{District number of students enrolled in 2007-2008}}$$

- For each district, a **difference score** is calculated by subtracting the district **overall African American percentage** from the district **special education African American percentage**.

$$\text{Difference score} = \text{District special education African American percentage} - \text{District overall African American percentage}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Required improvement is available for this indicator.
- Minimum Size Requirements: At least 30 African American students enrolled, at least 30 African American students served in special education, and at least 30 enrolled students served in special education.
- Professional judgment special analysis is available for this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the number of **African American** and all students reported by the district as **enrolled** in the district and receiving **special education** services (PEIMS fall 2007 snapshot data; 101 Record, 110 Record, and 163 Record).

NOTES

- Students coded in PEIMS under the instructional setting/arrangement codes 02 (Hospital Class), 81-89 (Residential Care and Treatment Facility), and 30 (School for Persons with Mental Retardation) are not included in the calculation of this indicator in either the numerator or the denominator.
- Students whose PEIMS code on the 163 Record (Element ID E0833) is 1 (Enrolled in the regional day school program < 50% of the day) or 2 (Enrolled in the regional day school program ≥ 50% of the day) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.

PERFORMANCE LEVEL ASSIGNMENT

For each district, the **difference score** is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District SPED African American Representation				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district percent of special education students who are African American is no more than 1.0 percentage point higher than the percent of all district students who are African American. Minimum size requirements not applicable if PL = 0.	The district percent of special education students who are African American is between 1.1 and 5.9 percentage points higher than the percent of all district students who are African American.	The district percent of special education students who are African American is between 6.0 and 10.0 percentage points higher than the percent of all district students who are African American.	The district percent of special education students who are African American is at least 10.1 percentage points higher than the percent of all district students who are African American.

Special Education Indicator #14: SPED Hispanic Representation

This indicator is the potential disproportion of Hispanic students served in special education.

CALCULATION

1. For each district, calculate the district **special education Hispanic percentage**:

$$\text{District special education Hispanic percentage} = \frac{\text{District number of Hispanic students served in special education in 2007-2008}}{\text{District number of special education students enrolled in 2007-2008}}$$

2. For each district, calculate the district **overall Hispanic percentage**:

$$\text{District overall Hispanic percentage} = \frac{\text{District number of Hispanic students enrolled in 2007-2008}}{\text{District number of students enrolled in 2007-2008}}$$

3. For each district, a **difference score** is calculated by subtracting the district **overall Hispanic percentage** from the district **special education Hispanic percentage**.

$$\text{Difference score} = \text{District special education Hispanic percentage} - \text{District overall Hispanic percentage}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

DATA SOURCE

- Required Improvement is available for this indicator.
- Minimum Size Requirements: At least 30 Hispanic students enrolled, at least 30 Hispanic students served in special education, and at least 30 enrolled students served in special education.
- Professional judgment special analysis is available for this indicator.
- Three years of data are available for analysis under this indicator.

- The data for this indicator are based on the number of **Hispanic** and all students reported by the district as **enrolled** in the district and receiving **special education** services (PEIMS fall 2007 snapshot data; 101 Record, 110 Record, and 163 Record).

NOTES

- Students coded in PEIMS under the instructional setting/arrangement codes 02 (Hospital Class), 81-89 (Residential Care and Treatment Facility), and 30 (School for Persons with Mental Retardation) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS code on the 163 Record (Element ID E0833) is 1 (Enrolled in the regional day school program < 50% of the day) or 2 (Enrolled in the regional day school program ≥ 50% of the day) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.

PERFORMANCE LEVEL ASSIGNMENT

For each district, the **difference score** is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District SPED Hispanic Representation				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis process results in the assignment of a performance level of <i>Not Assigned</i> .	The district percent of special education students who are Hispanic is no more than 1.0 percentage point higher than the percent of all district students who are Hispanic. Minimum size requirements not applicable if PL = 0.	The district percent of special education students who are Hispanic is between 1.1 and 5.9 percentage points higher than the percent of all district students who are Hispanic.	The district percent of special education students who are Hispanic is between 6.0 and 10.0 percentage points higher than the percent of all district students who are Hispanic.	The district percent of special education students who are Hispanic is at least 10.1 percentage points higher than the percent of all district students who are Hispanic.

Special Education Indicator #15: SPED LEP Representation

This indicator is the potential disproportion of students identified as limited English proficient (LEP) served in special education.

CALCULATION

- For each district, calculate the district **special education LEP percentage**:

$$\text{District special education LEP percentage} = \frac{\text{District number of LEP students served in special education in 2007-2008}}{\text{District number of special education students enrolled in 2007-2008}}$$

- For each district, calculate the district **overall LEP percentage**:

$$\text{District overall LEP percentage} = \frac{\text{District number of LEP students enrolled in 2007-2008}}{\text{District number of students enrolled in 2007-2008}}$$

- For each district, a **difference score** is calculated by subtracting the district **overall LEP percentage** from the district **special education LEP percentage**.

$$\text{Difference score} = \text{District special education LEP percentage} - \text{District overall LEP percentage}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Required improvement is available for this indicator.
- Minimum Size Requirements: At least 30 LEP students enrolled, at least 30 LEP students served in special education, and at least 30 enrolled students served in special education.
- Professional judgment special analysis is available for this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator are based on the number of **LEP** and all students reported by the district as **enrolled** in the district and receiving **special education** services (PEIMS fall 2007 snapshot data; 110 Record and 163 Record).

NOTES

- Students coded in PEIMS under the instructional setting/arrangement codes 02 (Hospital Class), 81-89 (Residential Care and Treatment Facility), and 30 (School for Persons with Mental Retardation) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS code on the 163 Record (Element ID E0833) is 1 (Enrolled in the regional day school program < 50% of the day) or 2 (Enrolled in the regional day school program ≥ 50% of the day) are not included in the calculation of this indicator in either the numerator or denominator.
- Students whose PEIMS Average Daily Attendance (ADA) Code = 0 are included in the calculation of this indicator in both the numerator and denominator.

PERFORMANCE LEVEL ASSIGNMENT

For each district, the **difference score** is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District SPED LEP Representation				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district percent of special education students who are LEP is no more than 1.0 percentage point higher than the percent of all district students who are LEP. Minimum size requirements not applicable if PL = 0.	The district percent of special education students who are LEP is between 1.1 and 5.9 percentage points higher than the percent of all district students who are LEP.	The district percent of special education students who are LEP is between 6.0 and 10.0 percentage points higher than the percent of all district students who are LEP.	The district percent of special education students who are LEP is at least 10.1 percentage points higher than the percent of all district students who are LEP.

Special Education Indicator #16: SPED Discretionary DAEP Placements

This indicator is the potential disproportionate discretionary placement of students served in special education in Disciplinary Alternative Education Programs (DAEPs).

CALCULATION

- For each district, calculate the district **special education discretionary DAEP placement rate**:

$$\begin{array}{l} \text{District special} \\ \text{education} \\ \text{discretionary} \\ \text{DAEP placement} \\ \text{rate} \end{array} = \frac{\text{District number of discretionary DAEP placements of students served in special education in 2006-2007}}{\text{District number of students served in special education in attendance in 2006-2007}}$$

- For each district, calculate the **overall discretionary DAEP placement rate**:

$$\begin{array}{l} \text{District overall} \\ \text{discretionary} \\ \text{DAEP placement} \\ \text{rate} \end{array} = \frac{\text{District number of discretionary DAEP placements for all students in 2006-2007}}{\text{District number of all students in attendance in 2006-2007}}$$

- For each district, a **difference score** is calculated by subtracting the district **overall discretionary DAEP placement rate** from the district **special education discretionary DAEP placement rate**.

$$\begin{array}{l} \text{Difference} \\ \text{score} \end{array} = \begin{array}{l} \text{District special education} \\ \text{discretionary DAEP} \\ \text{placement rate} \end{array} - \begin{array}{l} \text{District overall} \\ \text{discretionary DAEP placement} \\ \text{rate} \end{array}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Required improvement is available for this indicator.
- Minimum Size Requirements: At least 30 students in attendance served in special education.
- Professional judgment special analysis is available for this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator’s denominators are based on the number of students (all students versus special education students) reported by the district as **in attendance** (PEIMS summer 2007 data—400 Record and 405 Record). The data for this indicator’s numerators are based on the number of **discretionary DAEP placements** (all students versus special education students) reported by the district (PEIMS summer 2007 data—425 Record.)

NOTES

- **New!** Disciplinary Action Reason Code 50 (used, exhibited, or possessed a non-illegal knife as defined by the district's student code of conduct and as allowed under TEC 37.007) is now included in this indicator.
- Discretionary DAEP placements are for the 2006-2007 school year.
- A student is counted as a special education student in the first denominator if any 405 record was submitted for the student or if Element ID E0940 on any 400 Record submitted for the student contained anything but 0000. A DAEP placement is counted as a special education DAEP placement in the first numerator if the student had a matching record for the same reporting period on the 400 Record with Element ID E0041 containing anything but 00 and Element ID E0937 not equaling zero.
- Note that discretionary DAEP placements are defined using the PEIMS 425 Record – Disciplinary Action Codes and Disciplinary Action Reason Codes as follows: Action Codes (Element ID E1005) = 07, 08, and 10 and Reason Codes (Element ID E1006) = 01, 10, 21, 22, 23, 33, 34, 41, 49, and/or 50. Only one action per incident number is counted under this indicator.

PERFORMANCE LEVEL ASSIGNMENT

For each district, the **difference score** is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Discretionary DAEP Placements				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and 0RI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district percent of SPED discretionary DAEP placements is no more than 1.0 percentage point higher than the percent of overall discretionary DAEP placements. Minimum size requirements not applicable if PL = 0.	The district percent of SPED discretionary DAEP placements is between 1.1 and 3.0 percentage points higher than the percent of overall discretionary DAEP placements.	The district percent of SPED discretionary DAEP placements is between 3.1 and 6.0 percentage points higher than the percent of overall discretionary DAEP placements.	The district percent of SPED discretionary DAEP placements is at least 6.1 percentage points higher than the percent of overall discretionary DAEP placements.

Special Education Indicator #17: SPED Discretionary Placements to ISS

This indicator is the potential disproportionate discretionary placement of students served in special education to in-school suspension (ISS).

CALCULATION

- For each district, calculate the district **special education discretionary ISS placement rate**:

$$\text{District special education discretionary ISS placement rate} = \frac{\text{District number of discretionary placement of students served in special education to ISS in 2006-2007}}{\text{District number of students served in special education in attendance in 2006-2007}}$$

- For each district, calculate the district **overall discretionary ISS placement rate**:

$$\text{District overall discretionary ISS placement rate} = \frac{\text{District number of discretionary placements of all students to ISS in 2006-2007}}{\text{District number of all students in attendance in 2006-2007}}$$

- For each district, a **difference score** is calculated by subtracting the district **overall discretionary ISS placement rate** from the district **special education discretionary ISS placement rate**.

$$\text{Difference score} = \text{District special education discretionary ISS placement rate} - \text{District overall discretionary ISS placement rate}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS

- Required improvement is available for this indicator.
- Minimum Size Requirements: At least 30 students in attendance served in special education.
- Professional judgment special analysis is available for this indicator.
- Three years of data are available for analysis under this indicator.

DATA SOURCE

- The data for this indicator's denominators are based on the number of students (all students versus special education students) reported by the district as **in attendance** (PEIMS summer 2007 data—400 Record and 405 Record). The data for this indicator's numerators are based on the number of incidents of **discretionary placements in ISS** (all students versus special education students) reported by the district (PEIMS summer 2007 data—425 Record).

NOTES

- Discretionary placements to ISS are for the 2006-2007 school year.
- A student is counted as a special education student in the first denominator if any 405 record was submitted for the student or if Element ID E0940 on any 400 Record submitted for the student contained anything but 0000. An ISS placement is counted as a special education ISS placement in the first numerator if the student had a matching record for the same reporting period on the 400 Record with Element ID E0041 containing anything but 00 and Element ID E0937 not equaling zero.
- Note that discretionary placements to ISS are defined using the PEIMS 425 Record – Disciplinary Action Codes and Disciplinary Action Reason Codes as follows: Action Code (Element ID E1005) = 06 and 26 and Reason Code (Element ID E1006) = All Codes. Only one action per incident number is counted under this indicator.

PERFORMANCE LEVEL ASSIGNMENT

New! For each district, the **difference score** is compared to the PBMAS standards for the indicator, and performance levels are assigned as follows:

District Discretionary Placements to ISS				
Performance Level (PL) Assignments				
Performance Level = Not Assigned (Also includes NA SA and NA PJSA)	Performance Level = 0 (met standard) (Also includes 0SA, 0PJSA, and ORI)	Performance Level = 1 (Also includes 1SA and 1PJSA)	Performance Level = 2 (Also includes 2SA and 2PJSA)	Performance Level = 3 (Also includes 3SA and 3PJSA)
PL not equal to 0 and special analysis determination process results in the assignment of a performance level of <i>Not Assigned</i> .	The district percent of SPED discretionary ISS placements is no more than 10.0 percentage points higher than the percent of overall discretionary ISS placements. Minimum size requirements not applicable if PL = 0.	The district percent of SPED discretionary ISS placements is between 10.1 and 24.9 percentage points higher than the percent of overall discretionary ISS placements.	The district percent of SPED discretionary ISS placements is between 25.0 and 55.0 percentage points higher than the percent of overall discretionary ISS placements.	The district percent of SPED discretionary ISS placements is at least 55.1 percentage points higher than the percent of overall discretionary ISS placements.

Special Education Indicator #18: SPED Discretionary Placements to OSS

This indicator is the potential disproportionate discretionary placement of students served in special education to out-of-school suspension (OSS).

CALCULATION

1. For each district, calculate the district **special education discretionary OSS placement rate**:

$$\text{District special education discretionary OSS placement rate} = \frac{\text{District number of discretionary placements of students served in special education to OSS in 2006-2007}}{\text{District number of students served in special education in attendance in 2006-2007}}$$

2. For each district, calculate the district **overall discretionary OSS placement rate**:

$$\text{District overall discretionary OSS placement rate} = \frac{\text{District number of discretionary placements of all students to OSS in 2006-2007}}{\text{District number of all students in attendance in 2006-2007}}$$

3. For each district, a **difference score** is calculated by subtracting the district **overall discretionary OSS placement rate** from the district **special education discretionary OSS placement rate**.

$$\text{Difference score} = \text{District special education discretionary OSS placement rate} - \text{District overall discretionary OSS placement rate}$$

MINIMUM SIZE REQUIREMENTS AND SPECIAL ANALYSIS	DATA SOURCE
<ul style="list-style-type: none"> • Minimum size requirements and PBMAS special analysis process do not apply to this indicator. 	<ul style="list-style-type: none"> • The data for this indicator’s denominators are based on the number of students (all students versus special education students) reported by the district as in attendance (PEIMS summer 2007 data—400 and 405 Record). The data for this indicator’s numerators are based on the number of incidents of discretionary OSS placements (all students versus special education students) reported by the district (PEIMS summer 2007 data—425 Record).

NOTES

- **New!** This is a Report Only indicator for 2008. The district SPED discretionary OSS placement rate is reported for district information and planning purposes. No performance levels are assigned for this indicator in 2008.
- Discretionary placements to OSS are for the 2006-2007 school year.
- A student is counted as a special education student in the first denominator if any 405 record was submitted for the student or if Element ID E0940 on any 400 Record submitted for the student contained anything but 0000. An OSS placement is counted as a special education OSS placement in the first numerator if the student had a matching record for the same reporting period on the 400 Record with Element ID E0041 containing anything but 00 and Element ID E0937 not equaling zero.
- Note that discretionary placements to OSS are defined using the PEIMS 425 Record – Disciplinary Action Codes and Disciplinary Action Reason Codes as follows: Action Code (Element ID E1005) = 05 and 25. Reason Code (Element ID E1006) = All codes. Only one action per incident number is counted under this indicator.

SECTION VII: COMMENTS and QUESTIONS:

Questions about the determination of PBMAS district performance levels should be addressed to:

Address: Division of Performance-Based Monitoring
Texas Education Agency
1701 North Congress Avenue
Austin, Texas 78701-1494

Phone: (512) 936-6426
Fax: (512) 475-3880
E-mail: pbm@tea.state.tx.us

Comments on the 2008 PBMAS

Comments on the 2008 PBMAS, including indicators, performance levels, standards, and other components of the system are welcome and will assist the agency in its PBMAS evaluation and future system development. Comments may be submitted to **Rachel Harrington, Division Director, Division of Performance-Based Monitoring, Texas Education Agency, 1701 North Congress Avenue, Austin, Texas 78701-1494** or sent via e-mail to pbm@tea.state.tx.us. Comments should be provided no later than October 31, 2008, in order to allow sufficient time for incorporation into the 2009 PBMAS development cycle.

SECTION VIII

Appendices

This Page Intentionally Left Blank

Appendix A:

Career and Technical Education Nontraditional Courses

The federal Carl D. Perkins law requires states to measure participation in nontraditional courses. Nontraditional courses are defined as occupations or fields of work, including careers in computer science, technology, and other emerging high skill occupations, for which individuals from one gender comprise less than 25 percent of the individuals employed in each such occupation or field of work. The courses below were selected because, for the most part, they are occupationally specific courses in which the enrollment of one gender falls below 25 percent. Gender enrollments in the courses will be reviewed annually at the state and local levels as part of the Carl D. Perkins reporting process.

Nontraditional for Females	
PEIMS Number	Course
11921222	HOME MAINTENANCE IMPROVEMENT
